319.226 Supervisor of mineral wells; powers.

Sec. 16. The supervisor, acting directly or through his deputy or authorized representative, is specifically empowered to:

(a) Make inspections and provide for the keeping of records and checking on the accuracy thereof.

(b) Require the locating, drilling, deepening, reworking, reopening, casing, sealing, injecting, mechanical and chemical treating and plugging of wells subject to this act to be accomplished in a manner which is designed to prevent surface and underground waste.

(c) Designate after public hearing, and with the advice and recommendations of the board, those areas of the state in which there is no known or potential danger of surface or underground waste from test well drilling and in which permits to drill test wells will not be required.

(d) Require on all wells the keeping and filing of logs containing data which are appropriate to the purposes of this act. Logs on brine and test wells shall be held confidential for 10 years after completion and shall not be open to public inspection during that time except by written consent of the owner or operator. Logs for test wells drilled for exploratory purposes shall be held confidential until released by the owner or operator. The logs on all brine and test wells for exploratory purposes shall be opened to public inspection when the owner is no longer an active mineral producer, mineral lease holder, or owner of mineral lands in the state of Michigan.

(e) Require on storage and waste disposal wells, when specified by the supervisor, the keeping and filing of drillers' logs and sample logs, the running and filing of electrical and radioactivity logs, the keeping and filing of drill cuttings, cores, water samples, pilot injection test records, operating records and other reports.

(f) Release to the board or commission, for meetings and hearings, only data described in this section which are necessary to the administration of this act in the prevention or correction of surface or underground waste.

(g) Order through written notice the immediate suspension or prompt correction of any operation, condition or practice found to exist which is causing or resulting, or threatening to cause or result, in surface or underground waste.

(h) Require the filing of an adequate surety or security bond and provide for the release thereof.

(i) Qualify persons for blanket permits.

319.227 Drilling or conversion permits; necessity, application, bond, fee; survey of site; hearing.

Sec. 17. (1) A person shall not drill, or begin the drilling, of any brine, storage or waste disposal well, or convert any well for these uses, until the owner directly or through his authorized representative files a written application for a permit to drill or convert a well, files a survey of the well site, files an approved surety or security bond, and receives a permit in accordance with the rules of the supervisor. A fee of \$50.00 shall be charged for a brine, storage or waste disposal well permit. Within 10 days after receiving the prescribed application and fee, and following investigation, inspection and approval, the supervisor shall issue the well permit. No permit shall be issued to any owner or his authorized representative who does not comply with the rules of the supervisor or who is in violation of this act or any rule of the supervisor. Upon completion of the drilling or converting of a well for storage or waste disposal and after necessary testing by the owner to determine that the well can be used for these purposes and in a manner that will not cause surface or underground waste, the supervisor, upon receipt of appropriate evidence, shall approve and regulate the use of the well for storage or waste disposal. These operations shall be in accordance with the provisions of Act No. 245 of the Public Acts of 1929, as amended, being sections 323.1 to 323.12a of the Compiled Laws of 1948. Test wells, application, fee.

(2) A person shall not drill a test well, except as provided in subdivision (c) of section 16, until the owner directly or through his authorized representative files a written application for a permit to drill, files an approved surety or security bond, and receives a permit in accordance with the rules of the supervisor. A fee of \$1.00 shall be charged for a permit to drill a test well. Within 10 days after receiving the prescribed application and fee, and following necessary investigation, inspection and approval, the supervisor shall issue the permit. No permit shall be issued to any owner or his authorized representative who does not comply with the rules of the supervisor or who is in violation of this act or any rule of the supervisor.

Exempt test wells; log.

(3) No permit shall be required to drill a test well in those areas of the state where rocks of Precambrian age directly underlie unconsolidated surface deposits or in those areas which have been designated in accordance with the provisions of subdivision (c) of section 16. However, within 2 years after completion of the drilling of the well, the owner shall advise the supervisor of the location of the well and file with the supervisor the log required under subdivision (d) of section 16. The provisions of this act pertaining to the prevention and correction of surface and underground waste shall have the same application to these test wells as to other wells defined herein.

Blanket permit for test wells.

(4) Upon request, the supervisor may issue a blanket permit to drill test wells within a limited or local area where a geological test program is intended, and issue a blanket permit to drill test wells to qualified persons.

AN ACT to regulate the mode of plugging abandoned salt wells, and providing a penalty for the violation thereof.

The People of the State of Michigan enact:

319.251 Abandoned salt wells; plugging required; method, supervision.

Sec. 1. That whenever any well shall have been put down for the purpose of exploring for and producing salt or salt brine, upon abandoning or ceasing to operate the same, the owner or operator shall for the purpose of excluding all fresh water from the salt bearing rock and before drawing and casing, fill up the well with sand or rock sediment to the depth of at least 20 feet above the second sand or salt bearing rock, and drive a round seasoned wooden plug at least 2 feet in length, equal in diameter to the diameter of the wall below the casing, to a point at least 5 feet below the bottom of the casing, and immediately after the drawing of the casing, shall drive a round seasoned wooden plug into the well at the point just below where the lower end of the casing shall have rested, which plug shall be at least 3 feet in length, tapering in form and to be of the same diameter at the distance of 18 inches from the smaller end as the diameter of the wall below the point at which it is to be driven; after it has been properly driven shall fill in on top of same with sand or rock sediment to the depth of at least 5 feet. In case the fresh water casing cannot be entirely removed from the offset at reasonable cost, or where wells have not been abandoned but the owner or operator has ceased to operate the same for 9 months, then said well shall be plugged before disturbing casing at a point 20 feet above said second sand stone or salt bearing rock with a round wooden seasoned plug not less than 20 inches long and full size of the well at that point; said plug to have a hole through the center from 1 1/2 to 2 inches in diameter, and said plug to be quarter sawed about 1/2 of its depth from outside to hole in center and full length of plug. When above described plug is in proper place a round seasoned wooden pin of proper size and taper shall be driven into hole in center of above described plug, thereby splitting and spreading said plug against wall of well. Then 5 feet of clay shall be put on top of said pin and plug and thoroughly packed. All such work to be done under the supervision of and approved by the state salt inspector or his appointed agents.

“AN INTERSTATE COMPACT TO CONSERVE OIL AND GAS”

“ARTICLE I.

“This agreement may become effective within any compacting state at any time as prescribed by that state, and shall become effective within those states ratifying it whenever any 3 of the states of Texas, Oklahoma, California, Kansas, and New Mexico

have ratified and congress has given its consent. Any oil-producing state may become a party hereto as hereinafter provided.

“ARTICLE II.

“The purpose of this compact is to conserve oil and gas by the prevention of physical waste thereof from any cause.

“ARTICLE III.

“Each state bound hereby agrees that within a reasonable time it will enact laws, or if laws have been enacted, then it agrees to continue the same in force, to accomplish within reasonable limits the prevention of:

“(a) The operation of any oil well with an inefficient gas-oil ratio.

“(b) The drowning with water of any stratum capable of producing oil or gas, or both oil and gas in paying quantities.

“(c) The avoidable escape into the open air or the wasteful burning of gas from a natural gas well.

“(d) The creation of unnecessary fire hazards.

“(e) The drilling, equipping, locating, spacing or operating of a well or wells so as to bring about physical waste of oil or gas or loss in the ultimate recovery thereof.

“(f) The inefficient, excessive or improper use of the reservoir energy in producing any well.

“The enumeration of the foregoing subjects shall not limit the scope of the authority of any state.

“ARTICLE IV.

“Each state bound hereby agrees that it will, within a reasonable time, enact statutes, or if such statutes have been enacted then that it will continue the same in force, providing in effect that oil produced in violation of its valid oil and/or gas conservation statutes or any valid rule, order or regulation promulgated thereunder, shall be denied access to commerce; and providing for stringent penalties for the waste of either oil or gas.

“ARTICLE V.

“It is not the purpose of this compact to authorize the states joining herein to limit the production of oil or gas for the purpose of stabilizing or fixing the price thereof, or create or perpetuate monopoly, or to promote regimentation, but is limited to the purpose of conserving oil and gas and preventing the avoidable waste thereof within reasonable limitations.

“ARTICLE VI.

“Each state joining herein shall appoint 1 representative to a commission hereby constituted and designated as the interstate oil compact commission, the duty of which said commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances and conditions as may be disclosed for bringing about conservation and the prevention of physical waste of oil and gas, and at such intervals as said commission deems beneficial it shall report its findings and recommendations to the several states for adoption or rejection.

“The commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their several jurisdictions to promote the maximum ultimate recovery from the petroleum reserves of said states, and to recommend measures for the maximum ultimate recovery of oil and gas. Said commission shall organize and adopt suitable rules and regulations for the conduct of its business.

"No action shall be taken by the commission except: (1) By the affirmative votes of the majority of the whole number of the compacting states, represented at any meeting, and (2) by a concurring vote of majority in interest of the compacting states at said meeting, such interest to be determined as follows: Such vote of each state shall be in the decimal proportion fixed by the ratio of its daily average production during the preceding calendar half-year to the daily average production of the compacting states during said period.

"ARTICLE VII.

"No state by joining herein shall become financially obligated to any other state, nor shall the breach of the terms hereof by any state subject such state to financial responsibility to the other states joining herein.

"ARTICLE VIII.

"This compact shall expire September 1, 1947, but any state joining herein may, upon 60 days' notice, withdraw herefrom.

"The representatives of the signatory states have signed this agreement in a single original which shall be deposited in the archives of the department of state of the United States, and a duly certified copy shall be forwarded to the governor of each of the signatory states.

"This compact shall become effective when ratified and approved as provided in Article I. Any oil-producing state may become a party hereto by affixing its signature to a counterpart to be similarly deposited, certified and ratified.

"Done in the city of Dallas, Texas, this sixteenth day of February, 1935.

(Originally signed by the representatives of the following states: Oklahoma, Texas, New Mexico, Colorado, Illinois, Michigan, California, Arkansas and Kansas.)"

Act 197, 1959, p. 275; Eff. Mar. 19, 1960.

AN ACT to provide for the unitized management, operation and development of common sources of supply of oil, gas, oil and gas, or gas distillate in this state; to prescribe the powers and duties of the supervisor of wells; to authorize the organization of units and prescribing the procedure therefor; to create an advisory board and an appeal board; to provide for the enforcement of this act; and to provide penalties for the violation thereof.

The People of the State of Michigan enact:

319.351 Michigan unitization law; short title.

Sec. 1. This act shall be known and may be cited as the "Michigan unitization law".

HISTORY: New 1959, p. 275, Act 197, Eff. Mar. 19, 1960.

319.352 Michigan unitization law; definitions.

Sec. 2. As used in this act, unless the context otherwise requires:

(a) "Oil and gas" means not only oil and gas as such in combination one with the other, but also oil, gas, casinghead gas, casinghead gasoline, gas distillate or other hydrocarbons, or any combination or combinations thereof, which may be found in or produced from a common source of supply of oil, gas, oil and gas or gas distillate.

(b) "Pool" or "common source of supply" means a natural underground reservoir containing or appearing to contain a common accumulation of oil and gas. Each productive zone of a general structure, which is completely separate from any other zone in the structure, or for the purposes of this act may be so declared by the supervisor, is included in the term "pool" or "common source of supply". Any reference to a separately owned tract, although in general terms broad enough to include the surface and all underlying common sources of supply of oil and gas shall have reference thereto only in relation to the common source of supply or portion thereof embraced within the unit area of a particular unit.

(c) "Field" means the same general surface area which is underlaid or appears to be underlaid by 1 or more pools, and includes underground reservoirs containing oil and gas. "Field" and "pool" mean the same thing when only 1 underground reservoir is involved; however, "field" unlike "pool" may relate to 2 or more "pools".

(d) "Unit expense" means any and all cost, expense or indebtedness incurred by the unit in the establishment of its organization, or incurred in the conduct and management of its affairs or the operations carried on by it.

(e) "Lessee" means not only lessees under oil and gas leases but also the owners of unleased lands or mineral rights having the right to develop them for oil and gas.

(f) "Unit production" means all indigenous oil and gas produced and saved from a unit area after the effective date of the order of the supervisor creating the unit regardless of the well or tract within the unit area from which it is produced.

(g) "Supervisor" or "supervisor of wells" means the state director of conservation as provided in Act No. 61 of the Public Acts of 1939, as amended, being sections 319.1 to 319.27 of the Compiled Laws of 1948.

(h) "Board" means the advisory board appointed by the director of conservation as provided for in Act No. 61 of the Public Acts of 1939, as amended.

(i) "Waste", in addition to its ordinary meaning, means physical waste as that term is generally understood in the oil and gas industry. "Waste" includes (1) the inefficient, excessive or improper use or dissipation of reservoir energy; and the locating, spacing, drilling, equipping, operating, producing or plugging of any oil and gas well or wells in a manner which results or tends to result in reducing the quantity of oil and gas ultimately recoverable from any pool in the state under good oil and gas field practice; (2) the inefficient production of oil and gas in a manner causing or tending to cause unnecessary or excessive surface loss or destruction of oil and gas; and (3) the locating, spacing, drilling, equipping, operating, producing or plugging of a well or wells in a manner causing or tending to cause unnecessary or excessive loss or destruction of oil and gas.

319.353 Supervisor of wells; general duties; fees.

Sec. 3. Subject to the limitations of this act the supervisor shall make and enforce such orders, rules and regulations and do such things as may be necessary or proper to carry out and effectuate the purposes of this act, including adoption of a schedule of fees to be paid upon the filing of petitions, amendments thereto, and other instruments in connection therewith which shall bear reasonable relation to the cost of examining, inspectional and supervisory services required under this act.

HISTORY: New 1959, p. 276, Act 197, Eff. Mar. 19, 1980.

319.354 Petition for unit operations; contents.

Sec. 4. Any interested lessee may file a petition with the supervisor requesting an order for the unit operation of a pool, pools or parts thereof. The petition shall contain:

(a) A description of the pool, pools or parts thereof to be so operated, termed the unit area.

(b) The names of all persons owning or having an interest in oil and gas in the proposed unit area, as disclosed by the records in the office of the register of deeds for the county in which the unit area is situated and their addresses, if known. If the address of any person is unknown, the petition shall so indicate.

(c) A statement of the type of the operations contemplated in order to effectuate the purposes of this act.

(d) A recommended plan of unitization applicable to the proposed unit area which the petitioner considers fair, reasonable and equitable.

HISTORY: New 1959, p. 276, Act 197, Eff. Mar. 19, 1980.

319.355 Order for unit operations; findings.

Sec. 5. Upon the filing of a petition therefor, and after notice and hearing, the supervisor shall make an order providing for the unit operation of a unit area if he finds after consulting with the board and considering its recommendations that:

(a) The unitization requested is reasonably necessary to substantially increase the ultimate recovery of oil and gas from the unit area.

(b) The type of operations contemplated by the plan are feasible, will prevent waste and will protect correlative rights.

(c) The estimated additional cost of conducting such operations will not exceed the value of the additional oil and gas so recovered.

HISTORY: New 1959, p. 276, Act 197, Eff. Mar. 19, 1980.

319.356 Order for unit operations; terms and conditions; plan for operations.

Sec. 6. The order of the supervisor shall be upon terms and conditions that are fair, reasonable and equitable and shall prescribe a plan for unit operations that includes:

(a) A description of the unit area.

(b) A statement in reasonable detail of the operations contemplated.

(c) An allocation to the separately owned tracts in the unit area of all the oil and gas that is produced from the unit area and is saved, excepting that production which is used in the conduct of operations on the unit area or unavoidably lost. Sec. 1-a. It is the intent and purpose of this act to encourage reforestation and proper forest management on lands chiefly valuable therefor.

HISTORY: Add. 1939, p. 449, Act 241, Eff. Sept. 29;—CL 1948, 320.301a.

320.302 Commercial forest; definition.

Sec. 2. A commercial forest, within the meaning and purpose of this act, is defined as a tract of land containing no material natural resources other than forest growth, no portion of which is used for agricultural, mineral, grazing, industrial, recreational or resort purposes, and upon which the owner proposes to develop and maintain a forest either through planting or natural reproduction or both. Such land must be capable of producing a thrifty forest growth and must at the time of listing as a commercial forest actually carry sufficient forest growth of suitable character and so distributed as to give assurance that a stand of merchantable timber will be developed within a reasonable period of time. The intent and purpose of this section is to exclude from classification as a commercial forest land carrying any merchantable trees in excess of the growing stock required by good forestry practice to promote optimum growth and development of a fully stocked forest as well as land used for other purposes than for the production of forest products and to exclude land not sufficiently stocked with young growth either by planting or natural reproduction to promise to become a satisfactory stand of merchantable timber, but not to exclude from such classification land selectively logged or land carrying a stand of forest growth well advanced toward maturity but still requiring a period of years in which to become sufficiently mature to produce high grade forest products, nor to exclude land not sufficiently stocked with young growth where such land is essential to the proper development of a forest property accepted for listing under the provisions of this section.

HISTORY: CL 1929, 5760;—Am. 1931, p. 326, Act 199, Eff. Sept. 18;—Am. 1939, p. 449, Act 241, Eff. Sept. 29;—CL 1948, 320.302;—Am. 1970, p. 598, Act 218, Eff. Apr. 1, 1971.

320.303 Commercial forest; application for listing; contents.

Sec. 3. The owner of any land within this state, which complies substantially with the requirements specified in section 2, may make application to the department of natural resources to have such land determined and listed a commercial forest, specifying in such application the legal description and acreage of such land and such additional information as may be called for by said department. The applicant shall furnish such information under oath and upon blanks provided for the purpose.

HISTORY: CL 1929, 5761;—CL 1948, 320.303;—Am. 1970, p. 598, Act 218, Eff. Apr. 1, 1971.

320.304 Commercial forest; application, hearing; notice, conduct; approval; record.

Sec. 4. Upon receipt of such application establishing prima facie the right of any land to be classed as a commercial forest the department of natural resources shall determine the character of the land offered and fix a date for a public hearing upon the eligibility of such land for listing as a commercial forest. The hearing shall be held in the county where the land is located not later than November 1 following receipt of the application, and all applications offering lands in the same county may be heard on the same day and at the same place. The department shall cause a notice of such hearing and a list of the descriptions of land to be considered for classification as commercial forests to be published in a newspaper published and circulated in said county,

and at least 20 days shall elapse between the date of publication of said notice and the date of the hearing. At the same time that the notice is sent to the newspaper for publication, the department shall send a copy of the notice and a list of descriptions of land in each township to be considered for classification to each township supervisor in whose township the lands are located. Any township supervisor or other person desiring to testify as to eligibility for the listing as a commercial forest of any of the descriptions offered, may appear and be heard at such hearing. Such hearing may be conducted by the director or any employee of the department designated for the purpose.

In case the department shall determine that the descriptions listed, or any of them, comply with the requirements as to commercial forests specified in section 2 and that the owner has declared his intention to devote the land to the development and maintenance thereon of a commercial forest, and that there are no unpaid valid taxes against such land, the department shall forthwith report such determination to the applicant and also to the supervisor of the township and shall record with the register of deeds in the county in which said commercial forest is located, the application of the owner and the approval of the department endorsed thereon.

320.305 Commercial forest; exemption from property tax; annual specific tax, computation, collection, disposition.

Sec. 5. Lands offered by the owner and approved as commercial forests and certified as such by the department of natural resources to the supervisor of the township in which located shall not thereafter be subject to the ad valorem general property tax except as to such taxes as may have been previously levied, but shall be subject to an annual specific tax of 15 cents per acre. The supervisor of the township shall remove from the list of land descriptions assessed and taxed under the ad valorem general property tax the land descriptions certified to him by the department as being commercial forests and shall enter such land descriptions on a roll separate from lands assessed and taxed the ad valorem general property tax and shall spread against such commercial forest lands the specific tax hereinbefore provided, and the township treasurer shall collect such specific tax at the same time and in the same manner as ad valorem general property taxes are collected and subject to the same collection charges. Lands listed and taxed as commercial forests shall be subject to return and sale for non-payment of taxes in the same manner, at the same time, and under the same penalties as lands returned and sold for non-payment of taxes levied under the ad valorem general property tax laws. No valuation shall be determined for descriptions listed as commercial forests and such lands shall not be considered by the county board of supervisors or by the state board of equalization in connection with county or state equalization for taxation purposes. All sums collected because of the annual tax as hereinbefore provided shall be distributed by the township treasurer in the same proportions to the various funds as the ad valorem general property tax is allocated in the township.

320.306 Acreage; certification; payment to county, amount; distribution.

Sec. 6. On December 1 of each year, the department of natural resources shall certify to the auditor general the number of acres of land determined and listed as commercial forests in each county and the auditor general shall transmit to the treasurer of each county in which such lands are situate a warrant on the state treasurer for an amount equal to 25 cents per acre upon each acre of land certified and listed as commercial forest in such county. The county treasurer of each county shall distribute

such tax in the same proportions between the various funds as the ad valorem general property tax is distributed by the township treasurer in each township for the specific tax paid by the owner of such land, as hereinbefore provided.

320.307 Application for withdrawal; fees, disposition; return to tax roll.

Sec. 7. Any owner of land listed as a commercial forest desiring to withdraw his land in whole or in part from the operations of this act shall make written application to the department of natural resources. The application shall be granted only on payment to the department of a fee of 3 cents per acre for each and every year the land has been registered as a commercial forest, but not to exceed the first 20 years, together with a fee equivalent to 10% of the full stumpage value of the merchantable forest products upon the land, as determined by the department. Such fees shall be paid to the department before the application to withdraw is granted. The department shall deposit the fee of 3 cents per acre and the fees received from the stumpage value of the merchantable forest products with the state treasurer to the credit of the general fund of the state. Whenever application to withdraw land from classification as a commercial forest is granted, the department shall at once notify the applicant, the supervisor of the township and the register of deeds of the county in which the lands are located of such action and shall file with those officials a list of the lands withdrawn. The lands shall forthwith be removed from the list of lands paying specific taxes and shall thereafter be assessed and taxed under the ad valorem general property tax the same as though never listed under this act. If application to withdraw is filed after January 1 in any year, the specific tax and not the ad valorem general property tax shall be paid for that year.

320.308 Permit to cut forest products; stumpage rates, determination, deposit; appeal.

Sec. 8. The owner of land registered as a commercial forest shall be entitled to a permit to cut forest products on such land without withdrawing it from classification as a commercial forest and without payment of any fee or tax other than the annual specific tax and the stumpage tax hereinafter provided. Any owner desiring to cut and remove merchantable forest products from land that has been listed as a commercial forest shall make application to the department of natural resources for a permit to cut, stating in his application the description or descriptions of land from which forest products are to be cut, and the class, the approximate amount and the unit stumpage value, as near as may be, of each such forest products proposed to be cut at the place of cutting. The department shall thereupon verify the unit stumpage value of each of the classes of forest products proposed to be cut and shall issue a permit indicating the unit stumpage values to be used in computing the yield tax to be paid for the forest products cut and removed under the terms of the permit as hereinafter provided. Any owner to whom a permit is issued and who is dissatisfied with the determination of the department as to the stumpage rates indicated in such permit may file a protest with the department within 20 days after receipt of the permit. For the purpose of determining the stumpage values the department shall conduct a hearing and may compel the attendance of witnesses. At the hearing the owner shall be given opportunity to be heard and to produce witnesses. The department in its discretion may then amend the

permit as to stumpage values to be used in computing the yield tax to be paid. It shall be unlawful to cut or remove forest products from land listed as a commercial forest until such permit has been issued.

The treasurer of the township, city or village, at the same time that he makes returns to the county treasurer, shall make and transmit to the department of conservation a list of the lands so delinquent for taxes and the amount of taxes delinquent upon each description in said list. The county treasurer shall, at the same time when he makes his return of delinquent lands to the auditor general, make a similar return to the department of conservation of all such leasehold interests, the taxes upon which have not been collected, with a statement of the amount thereof. The county treasurer shall have no authority to receive payment of the amount of any taxes assessed upon such leasehold interests; but such taxes when returned delinquent by the township treasurer shall be payable only to the department of conservation. The department of conservation shall provide suitable books and enter in the same the description of every leasehold interest so returned and the taxes thereon. The interest thus conveyed shall be allotted equally among those owners who shall pay the delinquent taxes with interest as herein provided: Provided further, That where default is made by any lessee in the payment of taxes, he shall be notified in writing by said department of conservation, at least 3 months before the date of final forfeiture of the amount due and the penalty for non-payment and the date upon which forfeiture is to occur: Provided further, That upon payment to said department of conservation of taxes and interest as herein provided, such amount shall be credited to the county in which such leasehold interests were assessed, in the same manner as taxes and interest are now credited to counties on part-paid state lands. Immediately upon formal determination by the department of conservation that a lease has been forfeited hereunder a certificate of cancellation of the same shall be executed under the seal of the department and shall be forwarded to the register of deeds of the county wherein such land is situated. Upon receipt of such certificate the register of deeds shall at once cause the same to be recorded in a suitable book to be provided by said register. The lands covered and affected by this act are all of the unpatented lake bottomlands and unpatented made lands in the Great Lakes, including the bays and harbors thereof, belonging to the state or held in trust by it, including those lands which have heretofore been artificially filled in. The waters covered and affected by this act are all of the waters of the Great Lakes within the boundaries of the state. This act shall be construed so as to preserve and protect the interests of the general public in the aforesaid lands and waters and to provide for the sale, lease, exchange or other disposition of unpatented lands and the private or public use of waters over patented and unpatented lands and to permit the filling in of patented submerged lands whenever it is determined by the department of conservation that the private or public use of such lands and waters will not substantially affect the public use thereof for hunting, fishing, swimming, pleasure boating or navigation or that the public trust in the state will not be impaired by such agreements for use, sales, lease or other disposition. The word “land” or “lands” whenever used in this act shall refer to the aforesaid described unpatented lake bottomlands and unpatented made lands and patented lands in the Great Lakes and the bays and harbors thereof lying below and lakeward of the natural ordinary high-water mark, but the act shall not be construed as affecting property rights secured by virtue of a swamp land grant or such rights as may be acquired by

For purposes of this act the ordinary high-water mark shall be deemed to be at the following elevations above sea level, international Great Lakes datum of 1955: Lake Superior, 601.5 feet; Lakes Michigan and Huron, 579.8 feet; Lake St. Clair, 574.7 feet; and Lake Erie, 571.6 feet.

Sec. 3. (1) The department of conservation, hereinafter referred to as the “department”, after finding that the public trust in the waters will not be impaired or substantially affected, is hereby authorized to enter into agreements pertaining to waters over and the filling in of submerged patented lands, or to lease or deed unpatented lands, after approval of the state administrative board. Quitclaim deeds, leases or agreements may be issued or entered into by the department with any person, firm, or corporation, public or private, or the United States of America covering unpatented lands, and shall contain such terms and conditions and requirements which shall be deemed just and equitable and in conformity with the public trust as determined by the department. The department shall reserve to the state of Michigan all mineral rights, including but not limited to coal, oil, gas, sand, gravel, stone and other materials or products located or found in said lands, except where lands are occupied or to be occupied for residential purposes at the time of conveyance.

(2) After the effective date of this amendatory act of 1965, a riparian owner shall obtain a permit from the department, for which no charge shall be made, before dredging or placing spoil or other materials on bottomland.

322.704 Unpatented lake bottom lands and unpatented made lands; application for conveyance, contents, qualifications of applicant, consent.

Sec. 4. (a) Application for a deed or lease to unpatented lands or agreement for use of water areas over patented lands shall be on forms provided by the department. Such application shall include a surveyed description of the lands or water area applied for, together with a surveyed description of the riparian or littoral property lying adjacent and contiguous to the lands or water area, certified to by a registered land surveyor. The description shall show the location of the water's edge at the time it was prepared and such other information that shall be required by the department. The applicant shall be a riparian or littoral owner or owners of property touching or situated opposite the unpatented land or water area over patented lands applied for or an occupant of said land. The application shall include the names and mailing addresses of all persons in possession or occupancy or having any interest in the adjacent or contiguous riparian or littoral property or having riparian or littoral rights or interests in the lands or water areas applied for and such application shall be accompanied by the written consent of all persons having an interest in the lands or water areas applied for in the application.

Approvals required; abstract of title and tax history of riparian land.

(b) Before an application can be acted upon by the department, the applicant shall secure approval of or permission for his proposed use of such lands or water area from any federal agency as provided by law, the Michigan waterways commission and the legislative body of the local unit or units of government within which such land or water area is or will be included, or to which it is contiguous or adjacent. No deed, lease or agreement shall be issued or entered into by the department without such approvals or permission. The department may also require the applicant to furnish an abstract of title and ownership, and a 20-year tax history on the riparian or littoral prop-

erty which is contiguous or adjacent to the lands or water area applied for, as well as on the lands applied for, if available.

Deposit with application.

(c) The department shall require the applicant to deposit a fee of not less than \$50.00 for each application filed, which fee shall be deposited with the state treasurer to the credit of the state's general fund. Should a deed, lease or other agreement be approved by the department, the applicant shall be entitled to credit for the fee against the consideration which shall be paid for such deed, lease or other agreement.

HISTORY: New 1955, p. 405, Act 247, Eff. Oct. 14;—Am. 1958, p. 101, Act 94, Eff. Jul. 1;—Am. 1965, p. 564, Act 293, Imd. Eff. Jul. 22.

322.705 Unpatented lake bottom lands and unpatented made lands; consideration for conveyances or lease.

Sec. 5. Should the department determine that it is in the public interest to grant an applicant a deed or lease to such lands or enter into an agreement to permit use and improvements in the waters or to enter into any other agreement in regard thereto, the department shall determine the amount of consideration to be paid to the state by such applicant for the conveyance or lease of unpatented lands.

Lease or agreement to fill submerged lands; permanent improvements; artificial changes in land; consideration; cash market value.

(a) The department may permit, by lease or agreement, the filling in of patented and unpatented submerged lands and permit permanent improvements and structures after finding that the public trust will not be impaired or substantially injured.

The department may issue deeds or may enter into leases if the unpatented lands applied for have been artificially filled in or are proposed to be changed from the condition that exists on the effective date of this act by filling, sheet piling, shoring, or by any other means, and such lands are used or to be used or occupied in whole or in part for uses other than existing, lawful riparian or littoral purposes. The consideration to be paid to the state for the conveyance or lease of unpatented lands by such applicant shall be not less than the fair, cash market value of the lands determined as of the date of the filing of such application, minus any improvements placed thereon but in no case shall the sale price be less than 30% of the value of the land. In determining the fair, cash market value of the lands applied for, the department may give due consideration to the fact that such lands are connected with the riparian or littoral property belonging to the applicant, if such is the case, and to the uses, including residential and commercial, being made or which can be made of said lands.

Agreements for lands or water areas with local units.

(b) Agreements for the lands or water area described in section 2 may be granted to or entered into with local units of government for public purposes and containing such terms and conditions which may be deemed just and equitable in view of the public trust involved and may include the granting of permission to make such fills as may be necessary.

Flood control, shore erosion control, drainage and sanitation control.

(c) If the unpatented lands applied for have not been filled in, nor in any way substantially changed from their natural character at the time the application is filed with the department, and the application is filed for the purpose of flood control, shore erosion control, drainage and sanitation control or to straighten irregular shore lines, the consideration to be paid to the state by the applicant shall be the fair, cash value of such land, giving due consideration to its being adjacent to and connected with the riparian or littoral property owned by the applicant.

Leases or agreements for marina purposes; definition.

(d) Leases or agreements covering unpatented lands may be granted or entered into with riparian or littoral proprietors for commercial marina purposes or for marinas op-

erated by persons, corporations, clubs or associations for such consideration and containing such terms and conditions which are deemed by the conservation department to be just and equitable. Such leases may include either filled or unfilled lake bottomlands, or both. Rental shall commence as of the date of use of such unpatented lands for the marina operations. Dockage and other uses by marinas in waters over patented lands on the effective date of this act shall be deemed to be lawful riparian use.

The term "marina purposes" as used in this act shall be construed as an operation making use of Great Lakes submerged bottomlands or filled in bottomlands for the purpose of service to boat owners or operators which may restrict or prevent the free public use of the affected bottomlands or filled in lands.

Fraud, consideration; hearing on determination.

(e) If the department after investigation determines that an applicant has wilfully and knowingly filled in or in any way substantially changed the lands applied for with an intent to defraud, or if the applicant has acquired such lands with knowledge of such fraudulent intent and is not an innocent purchaser, the sale price shall be the fair cash market value of the land. An applicant may request a hearing of any determination made hereunder. The department shall grant a hearing if requested.

322.706 Unpatented lake bottom lands and unpatented made lands; evaluation by department of conservation; appraisal, court appointed.

Sec. 6. The fair, cash market value of lands approved for sale under the provisions of this act shall be determined by the department. In no instance shall the consideration paid to the state be less than \$50.00. If the applicant is not satisfied with the value determined by the department, within 30 days after the receipt of such determination he may submit a petition in writing to the circuit court of the county in which such lands are located and the court shall appoint an appraiser or appraisers as the court shall determine for an appraisal of said lands. Decision of the court shall be final.

If the department finds that the project will not injure the public trust or interest including fish and game habitat, that the project conforms to the requirements of law for sanitation, and that no material injury to the rights of any riparian owners on any body of water affected will result, the department shall issue a permit authorizing enlargement of the waterway affected. The permit shall provide that the artificial waterway shall be a public waterway, except intake or discharge canals or channels on property owned, controlled, and used by a public utility. The department may impose further conditions in the permit that it finds reasonably necessary to protect the public health, safety, welfare, trust and interest, and private rights and property. The existing and future owners of land fronting on the artificial waterway are liable for maintenance of the waterway in accordance with the conditions of the permit.

Within 60 days of receipt of the statement, the commission shall make an order stating such minimum restrictions as in the judgment of the commission may be necessary to guard adequately against such unlawful uses of the waters of the state as are set forth in section 6. If the order is not acceptable to the user, he may request a hearing on the matter involved, following which the commission's final order of determination in this connection shall be conclusive unless reviewed in accordance with the provisions of the administrative procedures of Act No. 306 of the Public Acts of 1969 in the circuit court for the county of Ingham, in or for the county in which the user resides, or for the county in which the use is contemplated, upon petition therefor filed within 15 days after service upon the user of the final order of determination.

323.13 Surveillance fee; notice; payment; amount; rules.

Sec. 13. (a) In order to provide for increased surveillance, investigation, monitoring and other activities necessary to provide greater protection of the quality of waters of this state, an annual surveillance fee is payable by a person, company, corporation, but not a municipality, discharging water borne waste directly or indirectly into any waters of the state from any manufacturing facility; or from any other commercial establishment which may generate a discharge inconsistent with the protection of waters of the state. The fees shall be for the cost of surveillance of industrial and commercial discharges and receiving waters. The cost of necessary surveillance of municipal discharges shall not be financed from revenues so derived but may be provided otherwise by law. In any year, the total surveillance fees assessed on discharges shall not exceed the total amount appropriated to the commission and other appropriate state agencies for the surveillance, monitoring and related activities necessary to adequately assess the impact of commercial and industrial waste-water discharges on waters of the state.

(b) On or before February 1 of each year the commission shall inform each such discharger and the state treasurer of the annual surveillance fee due, from each plant location or major manufacturing component and commercial enterprise as provided by rules.

(c) On or before March 1 of each year a discharger shall pay to the state treasurer the amount of surveillance fee due who shall deposit it in the general fund of the state. The treasurer shall report the total annual amount collected to the governor and the legislature on or before April 15 of each year.

(d) The annual surveillance fee shall be based on an administrative fee of \$50.00 and an additional fee set by the commission. The additional fee shall be determined on a graduated basis using the volume of discharge to determine a base fee which shall be multiplied by a factor dependent on the strength of organic and inorganic waste constituents to establish the total annual surveillance fee. The maximum annual fee assessed upon any discharge which is in conformance with commission effluent restrictions shall not exceed \$9,000.00 per manufacturing location. Discharges into a municipal sewerage system shall be assessed only the \$50.00 administrative fee unless such discharge after municipal treatment is or may become injurious to the waters of the state as set forth in section 6 in which event the assessment will be based upon the same considerations as if the discharge after treatment were being discharged by the manufacturing facility or commercial establishment directly into the waters of the state. The commission shall adopt such rules as are necessary to implement this section in accordance with Act No. 306 of the Public Acts of 1969, being sections 24.201 to 24.313 of the Compiled Laws of 1948.

Sec. 3. (1) Grants shall be made under this act only for treatment works eligible for federal grants under United States Public Law 84-660, as amended, and on which construction commenced after June 30, 1967, and shall be made in an amount equal to 25% of that portion of the treatment works cost that is eligible for such federal grant. However, (a) treatment works which receive federal grants only under federal laws other than United States Public Law 84-660, as amended, and on which construction commenced after June 30, 1967, are eligible for state grants not to exceed 25% of the cost of treatment works, and; (b) the sum of state and federal grants on treatment works which receive federal grants only under federal law other than United States Public Law 84-660, as amended, shall not exceed 75% of the cost of the portions of such treatment works which are or would have been eligible for grants under United States Public Law 84-660, as amended.

After June 30, 1971, the combined state grant and state advance of the federal share shall not be less than 50% of the eligible treatment works cost.

(3) Financial assistance shall be given under this act to a local agency only if it has agreed, when filing its application for assistance under this act, to adjust the amount of its request for federal grants to the amount that is determined by the water resources commission to be available for apportionment. This agreement shall not affect the eligibility of the local agency for future reimbursement from any federal funds which may become available, of that part of the federal share of costs of the treatment works, which were prefunded by the local agency and which would have been eligible for federal grants if funds therefor had been available.

(4) Financial assistance shall be given under this act to a local agency only for treatment works on which eligibility for a federal grant has been established and construction contracts awarded or construction commenced after June 30, 1967.

(5) Notwithstanding the provisions of subsections (1) and (2) of this section, when a treatment works owned by a local agency is to be replaced in whole or in part by a system of another local agency under an official plan approved by the water resources commission after June 30, 1967, the present value of the treatment works or part thereof that is to be replaced, less the land value and any state or federal grants used in the construction thereof, shall be eligible for a state grant equal to 50% of such value. The present value shall be based on a straight line depreciated cost including any capital improvements thereto based on a maximum life of 40 years for structures and 20 years for equipment from the date the treatment works was placed in operation. The grant shall be made only if the regional local agency has entered into an agreement for acquisition of the treatment works or part thereof to be replaced and applies the grant toward such acquisition.

The certificate shall include or have attached thereto a certificate by the water resources commission, or by the state department of public health when so requested by the commission, of the necessity and sufficiency of the treatment works and all portions thereof.

(3) Disbursements from the fund to a local agency, as authorized by section 3, shall be made on certification to the director of the department of administration and the state treasurer by the water resources commission that such disbursements are due. A local agency is eligible for this certification at the same time and in the same proportions that federal grant payments are authorized. However, a disbursement shall be made from the fund to a local agency for 50% of the reasonable cost of preparing completed final construction plans and specifications for that part of the treatment works that is eligible for a federal grant, on (a) issuance of a construction permit by the department of public health for the treatment works for which the construction plans and specifications have been prepared, (b) receipt of evidence satisfactory to the commission of the local agency's ability and intent to finance the local share of the project cost and (c) certification to the director of the department of administration and the state treasurer by the water resources commission of the necessity and sufficiency of the plans and specifications.

No local agency shall be allocated a combined sum of grants and advances which exceeds 25% of the state funds available. The cumulative grant funds chargeable to a local agency project that provides treatment or transportation for sewage collected outside the corporate limits of that agency shall be computed on the basis of the ratio that the population served by that project within such corporate limits bears to the total population served thereby. the special assessments to conform as near as may be to applicable charter or statutory provisions therefor;

The contract may provide for any and all matters relating to the acquisition, construction, operation and financing of the sewage disposal system or water supply system as are deemed necessary, including authorization to the district to issue bonds secured by the full faith and credit pledges of the contracting municipalities, as authorized hereinafter. The contract may provide for appropriate remedies in case of default, including, but not limited to the right of the municipalities to authorize the county treasurer or other official charged with the disbursement of funds derived from the state sales tax levy under the provisions of Act No. 167 of the Public Acts of 1933, as amended, being sections 205.51 to 205.78, inclusive, of the Compiled Laws of 1948, and returnable to the governmental units pursuant to section 23 of article 10 of the Michigan constitution, to withhold sufficient funds to make up any default or deficiency in funds.

Any special election called for such purpose shall not be included in any statutory or charter limitation as to the number of special elections to be called within any period of time. Signatures on any petition shall be verified by some person under oath, as the actual signatures of the persons whose names are signed thereto, and the clerk of the municipality shall have the same power to reject signatures as city clerks under the provisions of section 25 of Act No. 279 of the Public Acts of 1909, as amended, being section 117.25 of the Compiled Laws of 1948. Act 143, 1959, p. 203; Eff. Mar. 19, 1960.

AN ACT to authorize permits for the use of water for the operation of low grade iron ore mining property; to prescribe the terms and conditions of water use permits; and to prescribe the powers and duties of the state water resources commission.

The People of the State of Michigan enact:

323.251 Low grade iron ore; mining and beneficiation, water permits.

Sec. 1. Substantial deposits of low grade iron ore are located in the Upper Peninsula of this state. The development and continuation of the industry of mining and beneficiating such low grade ores will provide employment and generally improve economic

conditions in that area and will be in the public interest and for the public welfare of this state. As the mining and beneficiating of the low grade iron ore requires considerable quantities of water, it is necessary that persons engaged in or about to engage in the mining and beneficiation of such ores be assured of an adequate and continuing supply of water for such operations to protect the large capital expenditures required for mills, plants and other improvements. It is, therefore, declared that the use of water as herein defined in connection with the mining and beneficiation of such low grade iron ores is in the public interest, for the public welfare and for a public purpose; and permits for the use of water or waters, as herein defined, may be issued by the commission in connection with the mining and beneficiation of such low grade iron ores as herein provided.

HISTORY: New 1959, p. 203, Act 143, Eff. Mar. 19, 1960.

323.252 Use of water in low grade iron ore mining property; definitions.

Sec. 2. As used in this act:

(1) "Low grade iron ore" means iron-bearing rock in the Upper Peninsula of this state which is not merchantable as ore in its natural state and from which merchantable ore can be produced only by beneficiation or treatment.

(2) "Low grade iron ore mining property" includes the ore beneficiation or treatment plant, other necessary buildings, facilities and lands located in the Upper Peninsula of this state.

(3) "Commission" means the state water resources commission.

323.253 Water permits; application, contents, hearing, notice, publication; findings.

Sec. 3. The commission may grant permits for the drainage, diversion, control or use of water when necessary for the operation of a low grade iron ore mining property. The operator of the low grade iron ore mining property may make application for the permit to the commission in the form prescribed by the commission and which shall contain such information and data as may be prescribed by the commission in its rules and regulations. Not later than 60 days following receipt of any such application the commission shall fix the time and place for a public hearing thereon and shall publish notice of the hearing. The notice shall be published twice in each county involved in at least 1 newspaper of general circulation in the county. At the hearing the applicant and any other interested party may appear, present witnesses and submit evidence. Following the hearing, the commission may grant the permit and publish notice thereof in the manner provided for publication of notice of hearing, upon finding the following conditions:

(1) That the proposed drainage, diversion, control or use of waters is necessary for the mining of substantial deposits of low grade iron ore and that other feasible and economical methods of obtaining a continuing supply of water therefor are not available to the applicant;

(2) That the proposed drainage, diversion, control or use of waters will not unreasonably impair the interests of the public or of riparians in lands or waters or the beneficial public use thereof, and will not endanger public health or safety.

323.254 Water permits; liability of state.

HISTORY: New 1950, p. 204, Act 143, Eff. Mar. 19, 1960.

323.255 Water permits; term.

Sec. 5. Every permit granted shall be for such term as shall be necessary to permit the mining to exhaustion and beneficiation of all low grade iron ore referred to in the application but not to exceed 50 years. The commission may prescribe in the permit such time as it deems reasonable for the commencement or completion of any operations or construction under the permit or the exercise of the rights granted thereby. The original term of the permit or the time allowed for the performance of any condition thereof may be extended by the commission upon application of the permittee.

HISTORY: New 1950, p. 204, Act 143, Eff. Mar. 19, 1960.

323.256 Water permits; rights; violation, revocation; emergency order for abatement.

Sec. 6. Every permit issued by the commission under the provisions of this act shall give to the permittee the right to use the water specified therein at such times, in such manner and in such quantity and under such circumstances as is specified therein, all subject to the conditions therein contained, and shall be irrevocable except for a breach or violation of the terms and conditions thereof. If the commission finds, upon consideration of the needs of the applicant, the public interest to be served by the use of the water by the applicant and all other facts relating to the use of the water, that the public interest requires the inclusion in the permit of a provision which will authorize modification or revocation thereof, then the commission may provide therefor by including in the permit the specific grounds upon which the permit may be modified or revoked by the commission in the public interest. No permit issued pursuant to this act shall be revoked for breach or violation of the terms and conditions thereof or be revoked or modified upon such other grounds as may be specified in the permit unless the permittee has been given an opportunity to be heard thereon after 30 days' written notice to the permittee. No permit shall be revoked for breach or violation of the terms and conditions thereof unless the permittee has been given an opportunity to correct or remedy the alleged breach or violation within a reasonable time and has failed to do so. Every notice shall specify the grounds for the proposed revocation or modification and, in the event of a proposed modification, the extent thereof. If violation of the conditions of a permit exists which in the judgment of the chairman of the commission so threatens the public interest in the waters involved as to require abatement without first giving 30 days' written notice to the permittee, he may issue an emergency order for abatement, which order shall have the same validity as if a 30 days' written notice had been given and the permittee granted a hearing. The emergency order shall remain in force no longer than 21 days from its effective date. Failure to comply with an emergency order constitutes grounds for revocation of the permit.

(2) At any hearing the commission or its duly authorized agents shall have power to

administer oaths, to take testimony and compel the introduction of written evidence, to issue subpoenas and to compel the attendance of witnesses.

323.307 River management district; establishment, powers, consolidation, coordination.

Sec. 7. The governing bodies of any two or more local governments may petition the water resources commission to establish a river management district in order to provide an agency for the acquisition, construction, operation and financing of water storage and other river control facilities necessary for river management. The petition shall be accompanied by a statement of necessity, a description of the district purposes, functions and operating procedures, which shall include methods of financing capital improvements and of apportioning benefit charges, and a general plan of development. Prior to approving the establishment of a district consisting of a portion of a river basin, the commission shall determine the feasibility of establishing the district to include the entire river basin or as large a portion of the basin as is possible. Approval of districts consisting of a portion of a river basin shall be on the basis that at such time as in the judgment of the commission it becomes feasible to form a district including the entire river basin, the river managements boards shall initiate proceedings to combine the smaller districts into larger districts or into an entire watershed-wide district.

Any plans for a river management district shall be coordinated with plans of adjacent river basins, organizations or agencies and with any comprehensive regional master programs for river management.

Act 170, 1921, p. 349; Imd. Eff. May 17.

AN ACT to provide for and define the duties of the state commissioner of health with reference to the registration of births and the issuance of birth certificates, the registration of deaths and the issuance of death certificates, the making and preservation of records of marriages, and with reference to the recording of other vital statistics; to provide for the transfer of certain powers and duties pertaining thereto from the secretary of state to the state health commissioner, and for the transfer of vital statistical records from the department of state to the department of health.

The People of the State of Michigan enact:

326.61 Secretary of state; transfer of powers and duties to commissioner of health.

Sec. 1. All powers and duties now vested by law in the secretary of state with reference to the registration of births and the issuance of birth certificates, the registration of deaths and the issuance of death certificates, the recording of marriages and the collection, recording and preservation of other vital statistics are hereby transferred to and vested in the state commissioner of health. The state commissioner of health shall hereafter be vested with full authority, and shall be required to exercise such powers

and perform such duties with reference to said matters as have heretofore been vested in, and required to be performed by the said secretary of state.

HISTORY: CL 1929, 6597;—CL 1948, 326.61. Act 170 of 1921 did not specifically refer to Act 9 of 1897, as was indicated in the title and amending section of amendatory Act 27 of 1923, being Compilers' § 326.51. See note thereto.

TRANSFER OF FUNCTIONS: Subsequent to the passage of this act the legislature has directly placed under the commissioner of health, the matter of birth and death registration by Act 343 of 1925, being Compilers' § 326.1 et seq., and of divorce registration by the 1923 amendment to Act 9 of 1897, being Compilers' § 326.51 et seq. Therefore the present operation of Act 170 of 1921 would seem to relate chiefly to records and statistics of marriages. See Compilers' §§ 24.9, 551.103, 551.109 and 551.203.

VITAL STATISTICS: Printing of monthly bulletin, see Compilers' § 24.9.

Upon receipt thereof, it shall be the duty of the state commissioner of health to keep and preserve said records in accordance with the laws pertaining thereto. All publications and reports of vital statistics heretofore required to be made from time to time by the secretary of state shall hereafter be made by the state commissioner of health.

Nothing in this act shall be construed or operate to empower or authorize the state commissioner of health, or any health officer, or their representatives, to restrict in any manner the individual's right to select the physician or mode of treatment of his choice: Provided, That sanitary laws and the laws, rules and regulations relating to infectious and contagious diseases are satisfactorily followed.

When knowledge comes to a health officer or to the state commissioner of health that any person who is afflicted with venereal disease has failed or refused to comply with orders, rules and regulations made under section 4 of this act, or is unable or unwilling to conduct himself and to live in such a manner as not to expose members of his family or household or other persons with whom he may be associated or come in contact to danger of infection, the health officer or state commissioner of health shall forthwith investigate or have investigated the circumstances alleged. If he shall find that any such person is a menace to others he shall petition the probate court of the county in which such person resides or is found for an order directing the admission of such person to any approved hospital or institution. Upon receiving said petition the court shall fix a date for hearing thereof, and notice of such petition and the time and place of hearing thereof shall be served personally, at least 24 hours before the hearing, upon the person afflicted with such venereal disease and alleged to be dangerous to others, and upon the health officer or state commissioner of health who made the petition. The person so afflicted and the local health officer or state commissioner of health may waive notice of hearing, and upon the filing of such waiver in writing the court may proceed to hear such petition forthwith. Upon such hearing, if it shall appear that the complaint of the health officer or state commissioner of health is well founded and that the said person is a source of danger to others, such court shall commit the person afflicted to any approved hospital or institution. Such person shall be deemed to be committed until discharged in the manner authorized in this section. In making such commitment the judge of probate shall make an order for payment for the transportation of such persons, and for the maintenance of such persons as required by such hospital, which order may be a charge against the county from which the person is committed. If the person afflicted is found to have sufficient means to pay the cost of transportation and hospitalization, in whole or in part, the court may order such afflicted person to pay a part or all of such cost. The chief administrative officer of the hospital or other institution to which any such person has been committed, upon signing and placing among the permanent records of such hospital or institution a statement to the effect that such person has obeyed the rules and regulations of such hospital or institution, and that said person has received sufficient treatment to render said person no longer infectious, and that in the judgment of the attending physician such person may be discharged without danger to the health or life of others, or for any other reason stated in full which he may deem adequate and sufficient, may discharge the person so committed. neglects or refuses to obey the rules or regulations of the institution may, by direction of the chief administrative officer of the institution, be placed apart from the others and restrained from leaving the institution. Any such patient who wilfully violates the rules and regulations of the institution or who repeatedly conducts himself in a disorderly manner may be taken before a justice of the peace by order of the chief administrative officer of the institution. The chief administrative officer may enter a complaint against such person for disorderly conduct and the justice of the peace, after a hearing and upon due evidence of such disorderly conduct, may commit such person for a period not to exceed 6 months to any institution to which persons convicted of disorderly conduct or vagrancy may be committed and such institution shall keep such person separate and apart from the other inmates, provided that nothing in this section shall be construed to prohibit any person committed to any institution under the provisions hereof from appealing to any court of competent jurisdiction for a review of the evidence on which such commitment was made.

HISTORY: CL 1948, 329.206.

329.207 Treatment furnished by local health officer; expense; removal.

Sec. 7. If it shall be determined by the health officer of the city, village, township, county or district, that there is any person afflicted with venereal disease found within such city, village, township, or district who requires care, treatment, isolation or hospitalization, it shall be the duty of such health officer to provide such care, treatment, isolation or hospitalization as such person requires or may be necessary for the protection of the public in accordance with the rules and regulations made by the state commissioner of health as authorized in section 4 of this act. In making such provisions the health officer shall issue such order or orders as may be necessary authorizing the care, treatment, isolation or hospitalization of such persons. Notice of the action taken, under this section or section 5 hereof, shall be reported promptly by such officer to the county department of social welfare, of the probable place of settlement of such afflicted person. Nothing herein contained shall be construed to abridge the authority of the health officer in furnishing care, treatment, isolation or hospitalization to such afflicted person, pending the determination by such health officer or upon his request, by the county department of social welfare of the financial ability and probable place of settlement of such person so afflicted, but it shall be the duty of such health officer, immediately upon being apprised of any case reported to him, to extend aid and assistance to such afflicted person, and to promptly furnish such care, treatment, isolation or hospitalization as such person may require. The health officer shall present to the board of supervisors or board of auditors of such county an itemized statement of the expense incurred in the care, treatment, isolation or hospitalization of such person with his approval of the reasonableness of such charges. The county wherein such person afflicted with venereal disease is found and cared for shall pay such charges as the board of supervisors or board of auditors thereof decides are reasonable and as are not paid by the afflicted person.

If the place of settlement of such afflicted person is determined by said department of social welfare to be in another state, said department of social welfare may proceed to remove such person to his place of settlement in the manner authorized in section 8275 of the Compiled Laws of 1929 and amendments thereto: Provided, however, That the chief administrative officer of the hospital where such person is being cared for and treated, shall first certify in writing that such patient is able to be removed without danger to such person or to other persons who may come in contact with such afflicted person. If such place of settlement is determined by said department of social welfare to be in another county within this state, care shall be provided where such person is found at the expense of the county where such person has settlement. The

department of social welfare shall, within 30 days after the commencement of care, give notice in writing by mail to the department of social welfare of the county of settlement of such person that such care is being given. The health officer of the county of settlement may make such arrangements as he deems necessary to provide for the return of such person to and care in said county. If the settlement of such person is not acknowledged by the alleged county of settlement within 30 days after mailing of such notice, the question of settlement of such person may be submitted for decision to the state social welfare commission, as provided herein. When disputed or contested claims arise between 2 or more counties on account of the settlement of a person or family for the purposes of this act, it shall be the duty of the director of the state social welfare commission to determine and declare the county of settlement in any instance: Provided, however, That pending determination by the director of the state social welfare commission of the county of settlement of any person afflicted with venereal disease, the county in which such person is found shall provide necessary care, treatment, isolation or hospitalization: And provided further, That upon determination by the director of the state social welfare commission that the county wherein such person is found is not the county of his or her settlement, the county of settlement, as determined by such commission, shall reimburse the county where such person is found for all expenses incurred less any reimbursements from the state, from such afflicted person or other source for such care, treatment, isolation or hospitalization.

329.402 Tuberculosis; rules and regulations, contents; court review.

Sec. 2. The state department of public health may make such rules and regulations as it shall deem proper for the discovery and control of tuberculosis and of persons afflicted with tuberculosis including the requirement for an annual examination of persons who by nature of their occupation could constitute a public health hazard if infected with communicable tuberculosis, and establish rules of procedure for the guidance of health officers and other officials charged with the administration and enforcement of the laws of this state relating to the care, treatment and hospitalization of persons afflicted with tuberculosis. The rules and regulations shall be promulgated in accordance with the provisions of Act No. 88 of the Public Acts of 1943, as amended, being sections 24.71 to 24.80 of the Compiled Laws of 1948, and subject to Act No. 197 of the Public Acts of 1952, as amended, being sections 24.101 to 24.110 of the Compiled Laws of 1948. Such rules and regulations shall have a reasonable relationship to the control and elimination of tuberculosis, and shall include provision for the confinement of recalcitrant or uncooperative patients who refuse to conduct themselves in accordance with the reasonable regulations of the sanatorium or hospital in which they are being treated, in any state or other public institution equipped to provide treatment and means of control. The reasonableness of any such rule or regulation or of any order of confinement made thereunder shall be subject to review in the circuit court of the county from which the patient was hospitalized or of the county in which he is under treatment, on his petition. Nothing in this act shall be construed or operate to empower or authorize the state department of public health, or any health officer, or their representatives, to restrict in any manner the individual's right to se-

lect the physician or mode of treatment of his choice, if sanitary laws and the laws, rules and regulations relating to infectious and contagious diseases are complied with.

329.402a Tuberculosis; infected persons, involuntary commitment to hospital, procedure; nonresident; petition, notice, service; hearing; discharge, report; restraint of committed person.

Sec. 2a. When knowledge comes to a health officer or to the state commissioner of health that any person is afflicted with tuberculosis and is unable or unwilling to conduct himself and to live in such a manner as not to expose members of his family or household or other persons with whom he may be associated to danger of infection, the health officer or state commissioner of health shall forthwith investigate or have investigated the circumstances alleged. If he shall find that any such person is a menace to others and is unwilling to voluntarily enter a sanatorium for treatment, he shall petition the probate court of the county in which such person resides or is found for an order directing the admission of such person to a specialized care facility at the northern Michigan tuberculosis sanatorium, or to any approved hospital or institution maintained for the care and treatment of persons afflicted with tuberculosis: Provided, That if such person belongs to another state, the county department of social welfare shall furnish transportation and necessary attendants in their discretion to such person, and return such person to the state to which he belongs, and the expense of the same shall be allowed by the auditor general and paid by the state on properly attested vouchers from the said county department of social welfare. Notice of such petition and the time and place for hearing thereof shall be served personally, at least 24 hours before the hearing, upon the person who is afflicted with tuberculosis and alleged to be dangerous to others, and upon the health officer, or state commissioner of health, who made the petition. Upon receiving said petition the court shall fix a date for hearing thereof and if, upon such hearing, it shall appear that the complaint of the health officer or state commissioner of health is well founded and that the said person is a source of danger to others, such court shall commit him to a specialized care facility at the northern Michigan tuberculosis sanatorium, or to any approved hospital or institution maintained for the care and treatment of persons afflicted with tuberculosis. Such order shall include a provision that the place of treatment shall be subject to change by the state commissioner of health for reasonable cause, subject to review in the court making the order, on application made within 30 days after the patient is informed of such modification. Such person shall be deemed to be committed until discharged in the manner authorized in this section or section 2c of this act. The chief medical officer of the hospital or other institution to which any such person has been committed, upon signing and placing among the permanent records of such hospital or institution a statement to the effect that such person has obeyed the rules and regulations of such hospital or institution for a period of not less than 60 days and that in his judgment such person may be discharged without danger to the health or life of others, or for any other reason stated in full which he may deem adequate and sufficient, may discharge the person so committed. He shall report each such discharge together with a full statement of the reasons therefor at once to the probate court initiating the order and to the health officer of the city, village, township, county or district from which the patient came and at the next meeting of the board of managers or other controlling authority of such hospital or institution. Every person hospitalized under the provisions of this section shall observe all the rules and regulations of such hospital or institution. Any patient so committed who neglects or refuses to obey the rules or regulations of the institution may, by direction of the chief medical officer of the institution, be placed apart from the others and restrained from leaving the institu-

tion. The chief medical officer of the hospital to which any such person has been committed may take such measures as he deems necessary to insure the continued presence of any person so committed, for the protection of the patient or for the protection of the community from infection by such person.

329.402b Tuberculosis; isolation of suspect, petition, notice, service; hearing; termination of commitment, notification; selection of physician.

Sec. 2b. If a health officer or the state health commissioner has reasonable grounds for believing that a person is afflicted with tuberculosis and is unwilling to submit to examination, including x-ray studies and the collection of such specimens for laboratory study as shall be requested by the health officer, or refuses to make the results of such studies available to the health officer or the state health commissioner, the health officer or the state health commissioner shall petition the probate court of the county in which such person resides or is found for an order directing the isolation of the suspect in such a place and under such conditions as, in the opinion of the health officer or the state health commissioner, will prevent the direct or indirect conveyance of the infectious agent to susceptible persons. Notice of such petition and the time and place of hearing thereof shall be served personally, at least 3 days before the hearing, upon the person who is suspected of being afflicted with tuberculosis and upon the health officer, or the state health commissioner, who made the petition. Upon receiving said petition the court shall fix a date for hearing thereof and if, upon such hearing, it shall appear that the suspicion of the health officer or the state health commissioner is reasonable, such court shall order the isolation of the suspect in a tuberculosis sanatorium or hospital approved by the state health commissioner. Such order shall remain in effect for a period of 60 days or until such time as the medical director of the sanatorium or hospital shall certify to the health officer that in his opinion the suspected individual is not a danger to the public health, whichever occurs earlier, or the commitment may be terminated in accordance with the provisions of section 2c. Upon termination of the commitment, the chief medical officer of the sanatorium shall forthwith notify the probate court initiating the order. If, prior to the expiration of such 60-day period, the health officer shall petition the probate court in the form provided in section 2a of this act, alleging that such person is afflicted with tuberculosis and is a source of danger to others, the matter shall thereafter proceed in accordance with said section 2a, and the order made under this section 2b shall remain in effect until the further order of such probate court: Provided, That nothing in this act shall be construed to empower the court, the state health commissioner or any health officer, or their representatives, to restrict in any manner the individual's right to select the physician or mode of treatment of his choice.

329.402c Medical review board; findings.

Sec. 2c. Any patient committed under this act shall have the right of appeal through the committing court for a medical review board recommendation as to whether or not his medical status is such that commitment can be properly terminated. The medical review board shall consist of 3 physicians appointed by the probate court from a list of physicians, having training and experience in the treatment of tuberculosis, submitted by the state health commissioner. If the patient requests, the court shall appoint as 1 of the 3 members of the medical review board a physician, having training

and experience in the treatment of tuberculosis, selected by the patient, and such physician need not be taken from the list submitted by the state health commissioner. After the findings of the review board have been turned over to the committing court, the said court may in its discretion either continue or terminate the commitment.

329.403 Tubercular person; care required; notice to social welfare department.

Sec. 3. If it shall be determined by the health officer of the city, village, township, county or district, that there is any person afflicted with tuberculosis found within such city, village, township or district who requires care, treatment, isolation or hospitalization, it shall be the duty of such health officer to provide such care, treatment, isolation or hospitalization as such person requires or may be necessary for the protection of the public in accordance with the rules and regulations made by the state commissioner of health as authorized in section 2 of this act. In making such provisions the health officer shall issue such order or orders as may be necessary authorizing the care, treatment, isolation or hospitalization of such persons. Notice of the action taken, under this section or section 2a hereof, shall be reported promptly by such officer to the county department of social welfare, of his probable place of settlement. Nothing herein contained shall be construed to abridge the authority of the health officer in furnishing care, treatment, isolation or hospitalization to such person, pending the determination by such health officer or upon his request, by the county department of social welfare of the probable place of settlement of such person so afflicted, but it shall be the duty of such health officer, immediately upon being appraised of any case reported to him, to extend aid and assistance to such afflicted person, and to promptly furnish such care, treatment, isolation or hospitalization as such person may require.

Expense of treatment; payment of claims; review.

In the case of any person hospitalized under this act, the county in which he has legal settlement in accordance with Act No. 280 of the Public Acts of 1939, as amended, being sections 400.1 to 400.90 of the Compiled Laws of 1948, shall be chargeable with the expense of such treatment, hospitalization or isolation, being reimbursed for a portion of such expense by the state in such amounts as the legislature may appropriate therefor. Patients who have not so resided within any county in this state for such period, and persons honorably discharged from the military services of the United States not otherwise hospitalized, and patients of the second class as defined by section 15 of Act No. 254 of the Public Acts of 1905, as amended, being section 332.65 of the Compiled Laws of 1948, shall for the purpose of this act be deemed residents of the state at large, and the expense of their treatment and hospitalization under this act while the same continues with the approval of the state commissioner of health shall be paid by the state, on certification of said state commissioner of health. The reasonableness and propriety of all claims and accounts under this act shall be passed upon and determined by the said state commissioner of health, subject to appeal to the circuit court for the county of Ingham as to questions of law.

Place of settlement; contest.

If such place of settlement is determined by said department of social welfare to be in another state or country, said department of social welfare may proceed to remove such person to his place of settlement in the manner authorized by Act No. 280 of the Public Acts of 1939, as amended, if the medical superintendent of the hospital where such person is being cared for, shall first certify in writing that such patient is able to be removed without endangering his life. If such place of settlement is determined by said department of social welfare to be in another county within this state, care shall be provided where such person is found at the expense of the county where such per-

son has settlement. The department of social welfare shall, within 30 days after the commencement of care, give notice in writing by mail to the department of social welfare of the county of settlement of such person that such care is being given. The health officer of the county of settlement may make such arrangements as he deems necessary to provide for the return of such person to and care in said county. If the settlement of such person is not acknowledged by the alleged county of settlement within 30 days after mailing of such notice, the question of settlement of such person may be submitted for decision to the state social welfare commission, as provided herein. When disputed or contested claims arise between 2 or more counties on account of the settlement of a person or family for the purposes of this act, it shall be the duty of the director of the state social welfare commission to determine and declare the county of settlement in any instance, when so requested or on the department's own volition: Provided, however, That pending determination by the director of the state social welfare commission of the county of settlement of any person afflicted with tuberculosis, the county in which such person is found shall provide necessary care, treatment, isolation or hospitalization: And provided further, That upon determination by the director of the state social welfare commission that the county wherein such person is found is not the county of his or her settlement, the county of settlement, as determined by such commission, shall reimburse the county where such person is found for all expenses incurred less any reimbursements from the state or other source for such care, treatment, isolation or hospitalization.

Sec. 3a. Expenditures of public funds for the treatment or control of tuberculosis or for the treatment, isolation or control of persons afflicted with tuberculosis, shall be considered expenditures for the protection of the public health, and not as moneys advanced in the nature of welfare or relief. No person shall be under legal obligation to make reimbursement for such expense so incurred, unless the state commissioner of health and the county of settlement, after reasonable notice and upon fair hearing under rules of procedure to be determined by the state commissioner of health, shall have found that the person so hospitalized or treated, or the person or persons legally liable for his support, are possessed of sufficient income or estate to enable them to make such reimbursement in whole or in part without materially affecting their reasonable economic security or support, in the light of their respective resources, obligations, and responsibilities to dependents. No such order shall be made retroactive unless said state commissioner of health and the county of settlement shall find that the person to be charged has been guilty of misrepresenting or withholding knowledge of facts material to the issue. Receipts under any such order, and moneys voluntarily paid as reimbursement, shall be distributed pro rata to the funds out of which the expenditures were made.

The period of temporary detention or hospitalization shall not exceed 5 days, unless the probate court by special order extends the time. No person arrested under this act shall be confined in a jail or other lock-up unless the person manifests homicidal or other dangerous tendencies. No person who is being treated by prayer in the practice of the religion of any church which teaches reliance on spiritual means alone for healing and is being given care and will continue to be given care in a place satisfactory to the judge, may be ordered detained or committed unless the court has determined that he is or would likely become dangerous to himself or to the person or property of others, or unless he or his legal guardian consent to detention or commitment. 330.20 Certificates of mental illness; content, physician's restrictions, application to accompany order; senile patients; estate, fees.

Sec. 10. Certificates of mental illness, feeble-mindedness, or epilepsy must be made by 2 reputable physicians, under oath, appointed by the probate court of the county where such person resides, or is an inhabitant, to conduct the examination, except as otherwise provided in section 9-b of this act. The physicians must be duly registered according to law, have the qualifications prescribed by the laws of this state, and shall not be related by blood or marriage to the person to be examined nor to the person applying for such certificate, and the appointment of such physicians shall be prima facie proof that such physicians are duly qualified. Neither of such physicians shall be a trustee, superintendent, proprietor, officer, stockholder, or have any pecuniary interest, directly or indirectly, or be an attending physician, in the institution to which it is proposed to admit such person. Such physicians are empowered to go where said person may be or make such personal examination of him as to enable them to form an opinion as to his mental condition, and no certificate shall be made except after such personal examination. Certificates of such physicians to authorize admission must show that it is their opinion that the person is actually mentally ill, or feeble-minded, or epileptic, as the case may be, and shall contain the facts and circumstances upon which the opinion of the physician is based, and show that the condition of the person examined is such as to require care and treatment in an institution for the care, custody and treatment of such mentally diseased persons. A copy of the application for care, custody and treatment of the patient shall accompany the order of admission, to be used as a history of the case and for no other purpose. No such certificate shall be issued by any physician if the person to whom it pertains manifests the general deterioration of mental processes, including disorientation, confusion or impairment of memory, associated with senility, but without psychotic implications: Provided, That persons not eligible for admission but who do require individualized medical care, treatment and supervision should, upon certification of the examining physicians that the person is not psychotic, be referred by the probate judge to the county department of social welfare: And provided further, That if it appears to the court that the person may require a guardian for the protection of his person or his estate, and no suitable person can be found immediately who is willing to act as guardian of such person without a charge for his services, then the judge of probate is authorized to appoint a member of the county social welfare board, or some employee of the county social welfare board nominated by said board for that purpose to act as temporary special guardian, as provided in section 11 of chapter 3 of Act No. 288 of the Public Acts of 1939, being section 703.11 of the Compiled Laws of 1948, until a regular guardian willing to act without expense to the public can be found. All costs in connection with the appointment of such temporary special guardian shall be waived. The word "estate" shall be construed to include benefits or gifts of government paid in monthly installments. Each physician making such examination and certifying as to the mental condition of such person shall, regardless of whether he finds such person to be mentally diseased or not, be entitled to receive for such services a sum of not less than \$5.00, and 10 cents per mile for travel necessarily performed in going to the place of such examination, and such further sum for expenses as the probate court shall allow.

330.21 Petition for hospitalization of mentally ill; hearing, notice; guardian ad litem; regional diagnostic and treatment center; jury; temporary detention; transfer of physically infirm; county and personal liability.

Sec. 11. The father, mother, husband, wife, brother, sister, child, if the petitioner be of legal age, or guardian of a person alleged to be mentally ill, mentally handicapped or epileptic, or the sheriff or supervisor of any township, or county agent, or by any other person whom a judge of probate, upon examination into the facts and circumstances of any particular case, shall determine would be a proper person to make such petition, or any peace officer within the county in which such alleged mentally diseased person resides, or may be, may petition the probate court of the county for an order directing the admission of such person to a hospital, home or institution for the care of the mentally ill, mentally handicapped or epileptic, such petition to contain a statement giving the facts and not the conclusions upon which the allegation of such mental disease is based and because of which the application for the order is made. Upon receiving such petition the court shall fix a day for hearing thereof and shall appoint 2 reputable physicians to make the required examination of such alleged mentally diseased person; such physicians shall file their report duly certified to with the court on or before such hearing. If such physicians do not agree, the court may appoint a third reputable physician to examine the alleged mentally diseased person as to his mental condition and such physician shall file his report duly certified to with the court. Notwithstanding any other provision of law, if an alleged mentally diseased person is temporarily admitted to any state hospital for the mentally ill, Wayne County General Hospital at Eloise or any municipal corporate hospital and the superintendent of such hospital or a member of the hospital medical staff designated by him certifies in a detailed psychiatric report that the person is mentally ill, the probate court may dispense with the requirement for the appointment of 2 reputable physicians and may accept the psychiatric report in lieu of physicians' certificates of mental illness. Notice of such petition and of the time and place of hearing thereon shall be served personally, at least 24 hours before the hearing, upon the person alleged to be so mentally diseased, the person who made the petition, the husband or wife, of such alleged mentally diseased person, if there be any such known to be residing within the county, and such other relatives or persons residing within this state as may be ordered by the court. This notice may be served in any part of the state. The court to whom the petition is presented may dispense with such personal service or may direct substituted service to be made upon some person to be designated by it. The court shall state in a certificate to be attached to the petition its reason for dispensing with personal service of such notice, and if substituted service is directed, the name of the person to be served therewith. In such cases the court shall appoint a guardian ad litem to represent such alleged mentally diseased person upon such hearing, and in other cases it may appoint such guardian ad litem. The court shall also take proofs as to the alleged mental condition or epilepsy of such person, and fully investigate the facts, and, if no jury is requested, the probate court shall determine the question of such alleged mental disease of such person. If it shall appear to the court or jury from evidence contained in the doctors' certificates, the psychiatric report or from evidence produced in court that such person is mentally diseased, but that the degree of mental disease does not warrant final adjudication and commitment or that a limited period of intensive treatment may make final adjudication and commitment unnecessary or if prior to the taking of any proof the alleged mentally diseased person or his attorney so demands,

the court shall order such person to be removed to a regional diagnostic and treatment center for diagnosis, care and intensive treatment for a period not to exceed 60 days, which period may be extended up to an additional 60 days by special order of the court upon request of the superintendent of the regional diagnostic and treatment center. Prior to the expiration of such period, the superintendent of such center shall certify to the court the results of intensive treatment of physical and mental examinations, the diagnosis of physical and mental ailments, and a recommendation that such person be finally admitted to a hospital, home or institution as herein provided or that such person be released. If the recommendation of the superintendent is for admission he shall specify the type of treatment indicated, the type of institution to which admission should be made and a prognosis of physical and mental ailments. Such determination shall be made by the court or by a jury as hereinafter provided only after the aforesaid certification including recommendation of the superintendent of the diagnostic and treatment center has been certified to the court which shall then become a matter of record. All the proceedings relating to diagnostic hearings and care and intensive treatment shall also apply to persons so addicted to the excessive use of intoxicating liquors, or narcotics or noxious drugs, as to be in need of medical and sanitary treatment and care. If the court shall deem it necessary, or if such alleged mentally diseased person, or any relative, or any person with whom he may reside, or at whose house he may be, shall so demand, a jury of 6 shall be summoned to determine the question of such alleged mental disease and shall be selected in accordance with sections 1301 to 1354 of Act No. 236 of the Public Acts of 1961, as amended, being sections 600.1301 to 600.1354 of the Compiled Laws of 1948. With respect to jurors any examination, challenge, replacement, oath or other practice which is not governed by the provisions of sections 1301 to 1354 of Act No. 236 of the Public Acts of 1961, as amended, shall be governed by rules adopted by the supreme court. Pending such proceedings for admission into the proper home, hospital or institution, if it shall appear, upon the certificate of 2 legally qualified physicians, who need not be appointed by the probate court and who may be attending physicians in any institution to which it is proposed to admit such mentally diseased person, to be necessary and essential so to do, the court may order such alleged mentally diseased person to be placed in the custody of some suitable person, or to be removed to any hospital, home or retreat, to be detained until such petition can be heard and determined or to be removed to any state hospital for the mentally diseased or licensed hospital for custody and treatment. The period of such temporary detention shall not exceed 60 days, which period may be extended up to an additional 60 days by special order of the court upon request of such alleged mentally diseased person, or of his father, mother, husband or wife, or of his child or other next of kin, if of full age, or of the superintendent of any hospital to which such person was removed by order of the court. Such alleged mentally diseased person shall have the right to be present at such hearing, unless it shall be made to appear to the court, either by the certificate of the medical superintendent in charge of such hospital, home or retreat to which he may have been temporarily admitted, or by the certificate of 2 reputable physicians, that his condition is such as to render his removal for that purpose, or his appearing at such hearing improper and unsafe. If such person shall be found and adjudged to be mentally ill, mentally handicapped or epileptic, the court may issue an order for his admission to the proper hospital, home or institution or, when eligible, to the United States veterans' bureau hospital at Fort Custer for his care and treatment. If such person so found and adjudged mentally diseased shall have been placed in the custody of some suitable person, removed to and admitted to any hospital, home, retreat, or other suitable place of detention, for a period of temporary detention, as hereinbefore provided, under sections 9 and 11, the court shall, in issuing the permanent order for admission to the proper hospital, home,

or institution for his care and treatment, also include in this order provision for the person's continued detention in the custody of the suitable person, hospital, home, retreat, or other place of detention, to which he had previously been temporarily confined, until such time as room can be made for the person's admission, as hereinafter provided, into the proper hospital, home, or institution for care and treatment to which the person has been (under this paragraph) ordered to be admitted. In case the admission of such mentally diseased person is ordered as a patient after the effective date of this act, then the county of which such person is a resident shall be liable to the state for the care and maintenance of such patient for 1 year. The liability of the county of residence of such patient shall commence as of the date such person is detained under the final order of commitment by the probate court in any hospital, home, retreat, or other suitable place of detention except as otherwise provided by law. When a person is temporarily committed to a regional diagnostic and treatment center under the provisions of this act, or temporarily detained in a private mental institution licensed by the state department of mental health pursuant to a final order by the probate court as provided in this act, the period of such temporary commitment shall be credited to the 1-year period of care for which the county is liable. A county shall not be liable for the care and maintenance of any mentally diseased person for more than a total of 1 year during the lifetime of such a person. The superintendent of the Wayne County General Hospital or any hospital for the mentally ill to which a person is finally admitted as a mentally ill person shall certify to the commissioner of revenue of the state the names of those patients finally admitted on and after July 1, 1957, whose principal incapacitation consists of a physical infirmity and who might properly be cared for in a county infirmary, convalescent home or nursing home. The counties of settlement of such persons shall be liable for the care and maintenance of such persons so long as they shall remain in a state institution.

If the relatives or friends of such mentally diseased person shall so request, or if on investigation at the time of the order for care, custody and treatment or at any time subsequent thereto, it shall appear that such mentally diseased person has means of property sufficient for the payment of his care and maintenance, or if those persons legally liable under this act for the care and maintenance of such mentally diseased person, have sufficient means for that purpose, the court shall order his admission as a full-pay patient, or partial-pay patient, to any hospital, home or institution for the care or treatment of the mentally ill, mentally handicapped or epileptic in this state, and shall specify the amount which the estate of such mentally diseased person, or those persons personally liable for the care and maintenance of such mentally diseased person shall pay for care and maintenance of such mentally diseased person in such state institution, and the amount so stated shall be subject to collection the same as any other moneys due the state are collected. The patient or his estate, children of over 21 years of age, spouse and the natural parents or legally adoptive parents of a child, being of sufficient ability, shall jointly and severally be liable for the care and maintenance of any patient. No divorce shall operate to relieve the spouse of a patient from this liability for such care and maintenance, unless the court shall specifically so order.

330.21b Commissioner of revenue; public guardian, powers and duties.

Sec. 11b. Except as is otherwise provided herein the commissioner of revenue shall ex officio be the public guardian of every patient admitted to an institution until he is discharged therefrom.

The commissioner of revenue as such public guardian of any such patient shall have and may exercise all of the rights and powers with regard to the estate of the patient that such patient would have if of full age and of sound and disposing mind.

The powers of the public guardian of the estate of a patient may be exercised,

- (a) Notwithstanding the patient being released upon probation;
- (b) To carry out and complete any transaction entered into by the patient before he or she became a patient in an institution;
- (c) To carry out and complete any transaction entered into by the guardian of the estate of any patient notwithstanding that the patient may have been discharged or may have died after the transaction was commenced.

The acts of the public guardian shall not be rendered invalid by the making of an order appointing a guardian of the estate of any patient.

If some person has been appointed the guardian of the estate of any patient, the probate court of the county where the order for the commitment of such patient was made may at any time upon the application of the public guardian discharge said guardian from said trust and the public guardian shall serve in the capacity of said guardian and may exercise all the rights and powers conferred upon him by this act with regard to the management of the patients' estates: Provided, however, That a guardian shall not be replaced by said public guardian except upon a showing that said guardian has had funds in his hands belonging to said estate and has failed to use the same in providing for the maintenance of the patient of whose estate he is the guardian or has mismanaged the properties of said estate.

Upon the death of any patient the public guardian may until probate of the will or letters of administration to the estate of such patient is granted to some other person and notice is given to the public guardian, continue to manage the estate and may exercise with respect thereto the powers which an executor would have if the property were devised or bequeathed to him in trust for payment of the debts and distribution of the residue.

The public guardian shall be liable to render an account, if requested by the probate court or any relative of the patient but not more than once annually, as to the manner in which he has managed the property and effects of the patient in the same way and subject to the same responsibility as any trustee or guardian, but he shall not be allowed to tax costs or receive fees for his doings. The public guardian shall be personally liable only for wilful misconduct.

When a person discharged from an institution may not in the opinion of the public guardian based upon the report of the superintendent of such institution be competent to manage his or her affairs and the public guardian has in his hands property of such person, he may apply to the probate court where the commitment was made for directions as to the disposal of the property, and the court may give such orders and directions in the premises as it may deem just.

If there is any money in court to the credit of a patient the same shall be paid out to the public guardian upon his written application, and it shall not be necessary to obtain an order of the court for such purpose.

The public guardian shall, out of the money in his hands belonging to a patient, pay the proper charges for his or her maintenance in the institution in which he is a patient, and he may also pay such sums as he may deem advisable to the family of such patient or other person dependent upon him by law.

When an action or proceeding is brought by or on behalf of or taken against any patient in an institution, the writ or other document by which the proceedings are commenced and any other document requiring personal service shall be served upon the public guardian or any deputy in his office with a written statement of the institution in which the patient is detained besides the other persons on whom service is required by law.

It shall not be necessary to obtain an order of the probate court for the appointment of the public guardian but such appointment shall be absolute 3 months after the commitment order shall have been made by the probate court for the patient of any institution providing the court has not theretofore appointed a guardian and the public guardian has filed an application for the appointment of himself as said guardian. For good cause only the probate court may appoint any person to act as such guardian in the place and stead of the public guardian.

At the request of the public guardian every guardian of the estate of any patient shall turn over to him all papers, instruments, documents, evidences of accounts and indebtedness in said guardian's possession or under his control which refer to the patient, his estate, or the doings of said guardian in respect to said patient's estate, upon the appointment of said public guardian as guardian of said patient's estate.

The county of settlement of the committed mentally ill person shall have the same right for the first year of commitment to reimbursement from the estate of the committed person and his legally liable relatives and in the same manner as the state is permitted to have reimbursement. Any pertinent facts which a county has received, at the expiration of the first year, shall be transmitted to the state department of revenue to become a part of the reimbursement file of the patient. The committing county shall not receive reimbursement in any other manner than herein provided but the state in its reimbursing processes shall credit the county such moneys for reimbursement which the state collects during the county's first year liability.

330.27 Reimbursement proceedings to subject estate of patient to payment of expenses; setting aside of conveyances by person liable for expenses.

Sec. 17. When such mentally diseased person has been admitted to any of the state institutions named in this act, as a patient, the commissioner of revenue or at its request the prosecuting attorney of the county in which the order for admission was made shall, if such person be possessed of any estate, or shall thereafter, while he shall

remain such patient, become possessed thereof, petition the probate court of said county in his name as prosecuting attorney, stating that such person is mentally diseased and has been admitted to a state institution as a patient, and that he has good reason to believe, and does believe, that he has an estate, and praying for the appointment of a guardian of such mentally diseased person, if one has not already been appointed, and that said estate may be subjected to the payment to the state of the expenses paid and to be paid by it on behalf of said person as a patient. The court shall thereupon issue a citation to show cause why the prayer of the petition should not be granted. If such mentally diseased person has a guardian, the citation shall be served on him. If he has no guardian, it shall be served on such mentally diseased person and also upon his father, mother, husband, wife or some one of his next of kin, if any are known and can be found. The citation shall be served at least 14 days before the day of hearing, and may be served in any part of the state, in the manner provided by the rules of the probate court. The court may appoint a guardian ad litem of such mentally diseased person. At the time of the hearing, if it appear that such mentally diseased person has an estate which ought to be subjected to the claim of the state, the court shall, without further notice, appoint a guardian of the person and estate of such mentally diseased person if he has no such guardian, and the court shall make an order requiring said guardian to appropriate and apply such estate to the payment of so much or such part thereof as may appear to be proper toward reimbursing the state for the expenses thereto incurred by it on behalf of such mentally diseased person, and such part thereof towards reimbursing the state for the future expenses which it may pay on his behalf, as may to the court appear to be just and equitable, regard being had to the claims of persons having a moral or legal right to maintenance out of the estate of such mentally diseased person. If such guardian shall neglect or refuse to comply with such order, the court shall cite him to appear before the court at such time as it may direct, and show cause why he should not be removed, and to render an account of all money or property in his hands as such guardian, and on his continued failure to comply with said order, or to appear or render such account, the court may remove him and appoint some other suitable person in his place. As an additional remedy, the prosecuting attorney may enforce payment of the sums provided in the original order, by a proper action in the name of the state. If, in the opinion of the court, the estate of such mentally diseased person is sufficient to pay the costs of these proceedings, the guardian shall be ordered to pay the same. In all other cases a certified copy of the taxed bill of costs shall be furnished to the county treasurer. The county treasurer shall pay the same to the persons entitled thereto. The proceedings provided for by this section may be begun at any time either before or after commitment, and recovery thereunder may be had for the expenses incurred on behalf of such mentally diseased person during the entire period or periods such mentally diseased person has been a patient in said hospital, home or institution and the court may order payments to be made in the future during the confinement of said patient in the institution at the rate established by said institution and the commission in accordance with the provisions herein. All of the remedies provided in this section may be enforced by the commissioner of revenue.

Every conveyance of any estate or interest in lands or the rents and profits thereof and the transfer of any personal property without consideration or wherein the consideration thereof was inadequate made by any person legally liable under this act for the care and maintenance of any patient during the time that he was a patient in an institution hereunder shall be void as against the state, the absence of any order of the probate court determining such liability notwithstanding.

The circuit court is hereby granted jurisdiction to set aside any such conveyances above mentioned, and may decree a lien upon the lands or property conveyed or

transferred upon petition of the commissioner of revenue. Said petition may be filed with the circuit court for any county wherein the transferor resides or where the property transferred was situated. Notice of said petition and the hearing thereon shall be served on both the transferor and transferee in any county in the state by personal service or by registered mail with return receipt demanded and addressed to said persons at the last known address of said persons.

330.28 Liability of relatives for support; enforcement.

Sec. 18. (a) If a patient is an indigent person and has relatives who are legally liable for his support, the commissioner of revenue or at his request the prosecuting attorney of the county in which the order of admission was made shall petition the probate court of said county, stating that such mentally diseased person has been ordered admitted to a state institution as a public patient, or partial-pay patient, that he is an indigent person and that he has relatives, naming them, who are legally liable for his support, and praying that said relatives may be adjudged to reimburse the state for the expenses paid and to be paid by it in his behalf or such portion thereof as may appear to the court to be just and equitable. The court shall thereupon issue a citation to said relatives, to show cause why the prayer of the petition should not be granted. The citation shall be served at least 14 days before the day of hearing, and may be served in any part of the state. If it shall appear to said court on said hearing that such mentally diseased person is indigent, and that he has relatives who are parties to said proceedings, who are legally liable for his support and who are able to contribute thereto, he shall make an order requiring the payment by such relatives of such sum or sums as he may find they are reasonably able to pay, not exceeding, however, the cost to the state of maintaining said patient. Said order shall require the payment of such sums to the commissioner of revenue to be made monthly or bi-monthly as the court may direct. The court shall furnish the commissioner of revenue with a certified copy of such order, and it shall be the duty of the commissioner of revenue to collect the sums therein named and to turn the same into the state treasury, so long as such mentally diseased person is a patient. If such relatives so ordered to pay shall neglect or refuse so to do, the commissioner of revenue or 1 of his deputies or duly appointed agents may file an affidavit in said matter in the probate court in which said order was entered, stating therein the amount that said person or persons are delinquent in paying and thereupon the court shall forthwith issue an execution in the amount so stated and the same shall be directed to any sheriff or constable of any county in the state or the commissioner of Michigan state police. The sheriff or other officer to whom such execution shall be directed shall proceed upon the same in all respects, as near as may be, and with like effect and in the same manner as prescribed by law in respect to executions issued against property upon judgments by a court of record and shall be entitled to the same fees for his services in executing the same. The state through its commissioner of revenue or some agent designated by him is hereby authorized to bid for and purchase any property sold under the provisions hereof.

(b) In addition to the within means of collection the commissioner of revenue may bring an action at law in the county in which the persons named in said order reside and recover the amount of payments which said persons are delinquent in paying under said order.

The department may authorize the direct admission to a hospital under its jurisdiction of a mentally diseased person who has been committed to a state operated hospital in another state where the person has been found to possess legal settlement in a county in this state, or where the person is being returned to this state under the provisions of the interstate compact on mental health. The authorization to admit the patient shall be directed to the medical superintendent of the proper hospital and constitutes sufficient authority to detain the patient in the hospital for 20 days. Every such escaped patient shall be subject at any time to be taken back within the enclosure of the hospital from which he has escaped, and full power to retake and return any such escaped patient to the hospital from which he has escaped is hereby expressly conferred upon the medical superintendent of such hospital whose written order shall be a sufficient warrant commanding all peace officers to take into custody and to hold him for officers or agents of said hospital or the sheriff or his deputy. It shall be the duty of the sheriff, upon the request of any peace officer who has taken into custody any such escaped patient, to receive and confine in the county jail such escaped patient until he is returned to the institution from which he escaped by the sheriff or his deputies or agents of the institution, in accordance with the directions and orders of the superintendent of such institution. The court must in all cases of patients on convalescent status from an institution notify the medical superintendent and grant him an opportunity for a hearing before adjudging such patient recovered from mental illness. The foregoing provisions do not apply to patients in the Ionia state hospital who have been committed by a court of criminal jurisdiction.

If the interest shall be insufficient, such expenditures may be made from the principal of the fund. And if any sum be received from any other source for the support and care of such person, the moneys so received shall be first used for the payment of such expenditures in preference to money drawn from such interest or trust fund. Should any such mentally diseased person be removed from such institution by his legal custodian or guardian, while so mentally diseased, such expenditure on his behalf shall cease; and such interest or trust fund shall remain unappropriated until such person shall be returned to the institution, or the same shall be paid out as hereinafter provided by this act.

The state treasurer, upon the warrant of the auditor general, shall pay to such person or persons as may be entitled thereto, under the will or conveyance by which such fund was created, the balance, if any, of the principal and interest standing to the credit of such mentally diseased person. And if such will or conveyance shall not provide for or make any disposition of such fund in such cases, then such money shall be paid to the person for whose benefit such fund has been created, if he is living, and if he be dead, then to his legal representatives. But if, because of a liability to a return of his mental disease the commission and medical superintendent shall not deem it prudent that the state relinquish custody and control of the trust fund created for the benefit of any such mentally diseased person, the commission and medical superintendent, in their discretion, may authorize the use of the interest and a necessary portion of the principal of said fund for the benefit of such person though not an inmate of a state institution.

Accounts shall be kept with respect to each patient, in accordance with the rules and regulations of the department of mental health. The medical superintendent shall deposit moneys belonging to patients in a special patients' trust fund, to be disbursed as directed by the rules of the department of mental health: Provided, That the total of deposited moneys shall not exceed a maximum to be established for each institution by the department of mental health and that all funds in excess of such limit shall be transmitted by the medical superintendent to the state treasurer.

The moneys forwarded from the special patients' trust fund to the state treasurer shall be credited to a special trust fund in the state treasury to be known as the "hospital patients' trust fund," which may be invested by the state treasurer in the same manner as other surplus funds of the state, and disbursements therefrom shall be made under voucher of the medical superintendent as directed by the department of mental health.

There is also created in the state treasury a special trust fund to be known as the "hospital patients' benefit fund" which shall be composed of earnings from investment of the hospital patients' trust fund, unclaimed moneys in the hospital patients' trust fund, and gifts, grants, bequests and other donations for the benefit of patients, not governed by the provisions of sections 36 to 42, inclusive, of this act, as amended, authority for the acceptance and use thereof being hereby expressly conferred upon the department of mental health and the medical superintendents of the various institutions under its jurisdiction. The medical superintendent of each institution shall be authorized to deposit moneys so received in a special patients' benefit fund but the total of deposited moneys shall not exceed a maximum to be established for each institution by the department of mental health and all funds in excess of such limit shall be transmitted by the medical superintendent to the state treasurer. Said hospital patients' benefit fund shall be disbursed under the rules and regulations of the department of mental health for the benefit of patients in the state hospitals and institutions under its jurisdiction.

In case of the discharge of a patient, said patient shall be entitled to receive all personal effects in custody under this act and all moneys to the credit of his account: Provided, That in case conditional donations or gifts have been made for the benefit of a patient and accredited to his account, payment shall be made to the person or persons entitled thereto under the conditions of the donation.

In case of the death of a patient, the medical superintendent shall inform the committing probate judge, or the probate judge of the county wherein the patient died, as to all personal effects in custody, except those items released with the body, and all moneys to the credit of the patient's account. In case such personal property shall not

In case the estate is over the value of \$200.00, the estate of the patient shall be administered and probated as provided by law. However, in case conditional donations or gifts have been made for the benefit of the patient and credited to his account, payment shall be made to the person or persons entitled thereto under the conditions of the donation.

In the case of an escaped patient whose whereabouts remain unknown for a period of 3 years, the medical superintendent shall inform the committing probate judge, or the probate judge of the county wherein the institution is located, as to all personal effects in custody and all moneys to the credit of the patient's account. In case such personal property shall not exceed the value of \$200.00, the probate judge may issue an order that such personal property shall be turned over to the state treasurer for credit to the patients' benefit fund, which order shall authorize the state treasurer to convert all personal property into moneys.

The department of mental health shall require the bonding of the medical superintendent and such employees of the several state hospitals and institutions under its jurisdiction as said department shall determine will protect the interests of patients.

330.52b Medical superintendent's accounts for patients; disbursement to state, current needs funds, burial funds, rehabilitation fund.

Sec. 42b. The medical superintendent shall cause a separate account to be established for each patient for whom no guardian has been appointed from all moneys received for said patient not governed by the provisions of sections 36 to 42a of this act, that is to say, all money received for the patient from the veterans administration, social security administration, railroad retirement fund, industrial pension, workmen's compensation, insurance, whether hospitalization, disability, health, annuity or other insurance or type of benefit. The superintendent, within 90 days after having first received benefits for said patient shall first retain and set aside an amount in his discretion up to but not to exceed the sum of \$100.00 for the current needs of the patient, and second, retain and set aside the sum of \$500.00 as a burial fund, and third, pay, to the extent permitted by the law under which the benefits have been received, the balance to the commissioner of revenue to the full amount set by law and owing the state for the care and maintenance of the patient. If any payor listed above, vested with sole discretion as to application of funds transmitted, determines that provision be made primarily for the rehabilitation of a beneficiary, then the superintendent, upon receipt of the determination, shall retain and set aside the amount as directed in the determination and the personal needs account of any such patient may exceed the amount limited for such purpose in order to meet payor's requirement. If the superintendent is satisfied that adequate provision from any source has been made to meet the burial requirement, then he shall transmit all other moneys for such purpose in his possession to the commissioner of revenue. The superintendent shall make further payments

quarterly thereafter, whenever, after the deduction and retention of sufficient money to maintain the 2 funds as hereinabove described, there remains a balance to the patient's credit, and if any amount is then owing the state for the care and maintenance of the patient.

Repayment to patient upon discharge.

Upon proof submitted by or on behalf of a patient, including the recommendation of the medical superintendent, that a patient has been or is about to be discharged and is or will be without means of support, or if he has dependents without means of support, the administrative board may direct the state treasurer to repay to the patient or his dependents such portion of the moneys received under this section as the board may determine.

Act 270, 1965, p. 460; Imd. Eff. Jul. 21.

AN ACT to enact and adopt the interstate compact on mental health; to provide the terms of the compact; to prescribe the powers and duties of the governor and other state departments, agencies and officers; and to create the office of compact administrator and to prescribe his powers and duties.

The People of the State of Michigan enact:

330.81 Interstate compact on mental health.

Sec. 1. The interstate compact on mental health is hereby enacted into law and entered into by this state with all other states legally joining therein in the form substantially as follows:

INTERSTATE COMPACT ON MENTAL HEALTH

The contracting states solemnly agree that:

Article I

The party states find that the proper and expeditious treatment of the mentally ill and mentally deficient can be facilitated by cooperative action, to the benefit of the patients, their families, and society as a whole. Further, the party states find that the necessity of and desirability for furnishing such care and treatment bears no primary relation to the residence or citizenship of the patient but that, on the contrary, the controlling factors of community safety and humanitarianism require that facilities and services be made available for all who are in need of them. Consequently, it is the purpose of this compact and of the party states to provide the necessary legal basis for the institutionalization or other appropriate care and treatment of the mentally ill and

mentally deficient under a system that recognizes the paramount importance of patient welfare and to establish the responsibilities of the party states in terms of such welfare.

Article II

As used in this compact:

(a) "Sending state" shall mean a party state from which a patient is transported pursuant to the provisions of the compact or from which it is contemplated that a patient may be so sent.

(b) "Receiving state" shall mean a party state to which a patient is transported pursuant to the provisions of the compact or to which it is contemplated that a patient may be so sent.

(c) "Institution" shall mean any hospital or other facility maintained by a party state or political subdivision thereof for the care and treatment of mental illness or mental deficiency.

(d) "Patient" shall mean any person subject to or eligible as determined by the laws of the sending state, for institutionalization or other care, treatment, or supervision pursuant to the provisions of this compact.

(e) "After-care" shall mean care, treatment and services provided a patient, as defined herein, on convalescent status or conditional release.

(f) "Mental illness" shall mean mental disease to such extent that a person so afflicted requires care and treatment for his own welfare, or the welfare of others, or of the community.

(g) "Mental deficiency" shall mean mental deficiency as defined by appropriate clinical authorities to such extent that a person so afflicted is incapable of managing himself and his affairs, but shall not include mental illness as defined herein.

(h) "State" shall mean any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

Article III

(a) Whenever a person physically present in any party state shall be in need of institutionalization by reason of mental illness or mental deficiency, he shall be eligible for care and treatment in an institution in that state irrespective of his residence, settlement or citizenship qualifications.

(b) The provisions of paragraph (a) of this article to the contrary notwithstanding, any patient may be transferred to an institution in another state whenever there are factors based upon clinical determinations indicating that the care and treatment of said patient would be facilitated or improved thereby. Any such institutionalization may be for the entire period of care and treatment or for any portion or portions thereof. The factors referred to in this paragraph shall include the patient's full record with due regard for the location of the patient's family, character of the illness and probable duration thereof, and such other factors as shall be considered appropriate.

(c) No state shall be obliged to receive any patient pursuant to the provisions of paragraph (b) of this article unless the sending state has given advance notice of its intention to send the patient; furnished all available medical and other pertinent records concerning the patient; given the qualified medical or other appropriate clinical authorities of the receiving state an opportunity to examine the patient if said authorities so wish; and unless the receiving state shall agree to accept the patient.

(d) In the event that the laws of the receiving state establish a system of priorities for the admission of patients, an interstate patient under this compact shall receive the same priority as a local patient and shall be taken in the same order and at the same time that he would be taken if he were a local patient.

(e) Pursuant to this compact, the determination as to the suitable place of institutionalization for a patient may be reviewed at any time and such further transfer of the patient may be made as seems likely to be in the best interest of the patient.

Article IV

(a) Whenever, pursuant to the laws of the state in which a patient is physically present, it shall be determined that the patient should receive after-care or supervision, such care or supervision may be provided in a receiving state. If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state shall have reason to believe that after-care in another state would be in the best interest of the patient and would not jeopardize the public safety, they shall request the appropriate authorities in the receiving state to investigate the desirability of affording the patient such after-care in said receiving state, and such investigation shall be made with all reasonable speed. The request for investigation shall be accompanied by complete information concerning the patient's intended place of residence and the identity of the person in whose charge it is proposed to place the patient, the complete medical history of the patient, and such other documents as may be pertinent.

(b) If the medical or other appropriate clinical authorities having responsibility for the care and treatment of the patient in the sending state and the appropriate authorities in the receiving state find that the best interest of the patient would be served thereby, and if the public safety would not be jeopardized thereby, the patient may receive after-care or supervision in the receiving state.

(c) In supervising, treating, or caring for a patient on after-care pursuant to the terms of this article, a receiving state shall employ the same standards of visitation, examination, care, and treatment that it employs for similar local patients.

Article V

Whenever a dangerous or potentially dangerous patient escapes from an institution in any party state, that state shall promptly notify all appropriate authorities within and without the jurisdiction of the escape in a manner reasonably calculated to facilitate the speedy apprehension of the escapee. Immediately upon the apprehension and identification of any such dangerous or potentially dangerous patient, he shall be detained in the state where found pending disposition in accordance with law.

Article VI

The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the patient, shall be permitted to transport any patient being moved pursuant to this compact through any and all states party to this compact, without interference.

Article VII

(a) No person shall be deemed a patient of more than one institution at any given time. Completion of transfer of any patient to an institution in a receiving state shall have the effect of making the person a patient of the institution in the receiving state.

(b) The sending state shall pay all costs of and incidental to the transportation of any patient pursuant to this compact, but any two or more party states may, by making a specific agreement for that purpose, arrange for a different allocation of costs as among themselves.

(c) No provision of this compact shall be construed to alter or affect any internal relationships among the departments, agencies and officers of and in the government of a party state, or between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(d) Nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in re-

gard to costs for which such party state or subdivision thereof may be responsible pursuant to any provision of this compact.

(e) Nothing in this compact shall be construed to invalidate any reciprocal agreement between a party state and a non-party state relating to institutionalization, care or treatment of the mentally ill or mentally deficient, or any statutory authority pursuant to which such agreements may be made.

Article VIII

(a) Nothing in this compact shall be construed to abridge, diminish, or in any way impair the rights, duties, and responsibilities of any patient's guardian on his own behalf or in respect of any patient for whom he may serve, except that where the transfer of any patient to another jurisdiction makes advisable the appointment of a supplemental or substitute guardian, any court of competent jurisdiction in the receiving state may make such supplemental or substitute appointment and the court which appointed the previous guardian shall upon being duly advised of the new appointment, and upon the satisfactory completion of such accounting and other acts as such court may by law require, relieve the previous guardian of power and responsibility to whatever extent shall be appropriate in the circumstances: Provided, however, that in the case of any patient having settlement in the sending state, the court of competent jurisdiction in the sending state shall have the sole discretion to relieve a guardian appointed by it or continue his power and responsibility, whichever it shall deem advisable. The court in the receiving state may, in its discretion, confirm or reappoint the person or persons previously serving as guardian in the sending state in lieu of making a supplemental or substitute appointment.

(b) The term "guardian" as used in paragraph (a) of this article shall include any guardian, trustee, legal committee, conservator, or other person or agency however denominated who is charged by law with power to act for or responsibility for the person or property of a patient.

Article IX

(a) No provision of this compact except Article V shall apply to any person institutionalized while under sentence in a penal or correctional institution or while subject to trial on a criminal charge, or whose institutionalization is due to the commission of an offense for which, in the absence of mental illness or mental deficiency, said person would be subject to incarceration in a penal or correctional institution.

(b) To every extent possible, it shall be the policy of states party to this compact that no patient shall be placed or detained in any prison, jail or lockup, but such patient shall, with all expedition, be taken to a suitable institutional facility for mental illness or mental deficiency.

Article X

If the combined liabilities of the relatives thus computed exceed \$210.00, each responsible relative shall bear that portion of the maximum amount of \$210.00 as his net taxable income bears in proportion to the maximum amount of monthly liability.

(5) For any month in which the mentally retarded person has been a patient for only a portion thereof, the monthly liability of the relative shall be proportionately reduced. For purposes of this subsection, a person will be considered to be a patient from the date of his admission to the institution until his death or discharge excepting any period during which he is placed on convalescent status.

(6) Amounts paid for care and maintenance out of the estate of the patient or out of insurance proceeds payable for the care and maintenance shall reduce the monthly liability of a relative to the extent that they are greater than a sum determined by subtracting \$210.00 from the amount charged a full-pay patient. If 2 or more relatives are liable, any reductions under this subsection shall be apportioned among the liable relatives on the basis of their respective monthly liabilities.

(7) If the relative is liable for the care and maintenance of more than 1 mentally retarded person under the provisions of this act the monthly liability will be that imposed as if only 1 mentally retarded person was involved and the total period of liability with respect to all such mentally retarded persons shall not exceed 15 years.

(8) For purposes of computing the period of liability under section 4 of this act, months in which no payment is required under the schedule or as otherwise determined shall be deemed months in which the liable relative has made payments.

The renewal form shall contain the same information as the original form but shall include the most recent information concerning the net taxable income of the relative and be accompanied by a signed copy of the relative's income tax return submitted to the United States internal revenue service. The renewal form and the signed copy of the return shall be filed with the department of revenue by the succeeding June 1. The department of revenue shall reascertain the amount of liability under the provisions of this act and bill the relative accordingly for the period commencing on the succeeding July 1 and continuing through the following June 30. Payments by the relative shall be made as if the patient were first admitted on July 1.

330.660 Requests for determination of liability by revenue department; procedure before probate, appeals.

Sec. 10. If the relative believes that the monthly liability as determined by the

schedule does not accurately reflect his current income status or his ability to pay due to changed circumstances or otherwise, the relative may request at any time a determination of liability by the department of revenue. For purposes of the determination, the department of revenue may request the relative to supply all relevant financial information and such additional information as may be provided by rules of the department of revenue. After review of the information, the department of revenue shall establish the monthly liability of the relative. If the relative is dissatisfied with the determination, he may appeal the determination to the probate court of the county of residence of the patient. The probate court shall then determine the liability. In no case may the liability determined by the department or by the probate court exceed that established by the schedule. Appeals from the determination of the probate court may be made as in other cases.

(1) If a relative liable under this act for the care and maintenance of a patient fails to pay the amount due, the commissioner of revenue may petition the probate court of the county of residence of the patient and thereupon the court may forthwith issue an execution in the amount so stated and the same shall be directed to any sheriff or constable of any county in the state or the commissioner of Michigan state police. An execution shall not be issued by the probate court if an appeal as provided by section 10 is pending before the probate court and shall not be issued until at least 15 days from the final determination of the appeal by the probate court and the final determination of the court is not obeyed by the relative. In addition the commissioner of revenue may bring an action at law wherever the liable relative resides or may be found to recover the amount of payments which the liable relative is delinquent in paying. Before the commissioner of revenue can bring his action of law under this section, he shall be required to show that the relative liable under this act was notified by certified mail of his liability and that a period of at least 15 days has lapsed between the notification date and the date of the commencement of action as provided by this section. The costs of such proceedings shall be assessed against the relative only if the relative is held to be liable under the provisions of this act.

(2) If a liable relative fails to file a form, the monthly liability of the relative is deemed to be \$210.00.

in an institution hereunder shall be void as against the state, the absence of any order of the probate court determining such liability notwithstanding.

(2) The circuit court is granted jurisdiction to set aside any such conveyances above mentioned, and may decree a lien upon the lands or property conveyed or transferred upon petition of the commissioner of revenue. The petition may be filed with the circuit court for any county wherein the transferor resides or where the property transferred was situated. The board shall adopt such budget as shall be deemed necessary and shall ascertain what, if any, amount is required to be raised by taxation from the several cities, townships and villages to meet their respective shares of the amount of such budget in excess of the estimated other revenues. The ballots for use in such election shall be provided by the authority and the elections shall be conducted in the same manner as all special elections are required to be conducted in the respective communities except that where any part or all of a village belonging to such authority is located in a township belonging to the same authority, the township election shall include that part of the village located in it and the village shall not be required to hold such an election except in that portion of the village not located in a township belonging to such authority. The governing bodies of such member communities shall act as a board of canvassers and shall certify the results of such election to the hospital board, within 5 days after the date of the election, on forms provided by the hospital authority. The hospital board shall compile and tabulate the vote as received from the member communities and certify the result of such election by resolution upon the records of such authority, and a majority of the total valid votes cast at such an election voting "yes" on the question submitted shall constitute an approval. Any hospital authority, heretofore organized and operating pursuant to the provisions of this act, shall have all the authority and rights granted under the provisions of this act or any amendments thereto, relative to the construction of community hospitals, operation of same, issuance of bonds therefor, and pledging of income and revenues therefor, including the amounts assessed to the various member communities. Any action of the hospital board of any hospital authority in the adoption of any ordinance for the issuance of bonds and any proceedings taken under the ordinance and law in relation thereto prior to the effective date of this amendatory act is hereby validated, ratified and confirmed, and the hospital board of any such hospital authority may issue, sell and deliver the bonds authorized by such actions and proceedings in the manner prescribed by law.

Act 154, 1949, p. 164; Eff. Sep. 23.

AN ACT to authorize any city or incorporated village, having a population of over 500,000 according to the latest or each succeeding federal decennial census, to establish a medical center commission and prescribe its duties, to acquire and dispose of real property in a medical center district, to prescribe the methods of finance and exercise of these powers, and to declare the effect of this act.

The People of the State of Michigan enact:

331.601 Medical center commission; declaration of necessity.

Sec. 1. It is hereby found and declared that inadequate and insufficient facilities exist, both governmental and non-governmental, for research into the causes of physical and mental disease, for the training of students in medicine, psychiatry, dentistry, and nursing; that the lack of these facilities makes it difficult, if not impossible, to secure enough competent personnel for these professions; that the centralization of the resources of a number of institutions, governmental and non-governmental, into a medical center district would create better conditions for research and training; that in order to secure a centralization of facilities a medical center commission is necessary to interest the needed institutions in such an arrangement and to acquire the land needed for a medical center district; that in order to select the most favorable location it is necessary for cities and villages to exercise their power of eminent domain to acquire land for the use of both governmental and non-governmental medical institutions; that, since medical institutions find it difficult to finance the acquisition of land or the construction of buildings, a medical center commission is necessary as a central-

ized method of obtaining funds from whatever sources may be available; and the necessity in the public interest for provisions herein enacted is hereby declared as a matter of legislative determination to be a public purpose and a public use.

HISTORY: New 1949, p. 164, Act 154, Eff. Sep. 23.

335.56 Sales by apothecary; prescriptions.

Sec. 6. (1) (a) An apothecary, in good faith, may sell and dispense narcotic drugs to any person upon a written prescription of a physician, dentist, or veterinarian, dated and signed by the person prescribing on the day when issued and bearing the full name and address of the patient for whom, or of the owner of the animal for which, the drug is dispensed, and the full name, address, and registry number under the federal narcotic laws of the person prescribing, if he is required by those laws to be so registered. In issuing an oral prescription, the prescriber shall furnish the apothecary with the same information as is required by law or regulation in case of a written prescription for narcotic drugs except for the written signature of the prescriber, and the apothecary who fills such prescription shall be required to inscribe such information, together with the date of filling and his own signature, on the written record of the prescription made, filed and preserved by him. The prescription shall not be refilled.

(c) If the board of pharmacy shall subsequently determine that a narcotic drug, to which the oral prescription procedure described in the preceding paragraph has been made applicable, possesses a degree of drug addiction liability that, in its opinion, results in abusive use of such procedure, it shall by regulation publish such determination. The determination shall be final, and after the expiration of a period of 6 months from the date of its publication, the oral prescription procedure described in the preceding paragraph shall cease to apply to the particular narcotic drug which is the subject of the determination.

Sec. 20. In determining under what conditions and to what extent a variance from a rule or regulation may be granted, the commission shall give due recognition to the progress which the person requesting the variance has made in eliminating or preventing air pollution. The commission shall consider the reasonableness of granting a variance conditioned upon the person effecting a partial control of the particular air pollution or a progressive control of the air pollution over a period of time which it considers reasonable under all the circumstances; or the commission may prescribe other and different reasonable requirements with which the person receiving the variance shall comply.

HISTORY: New 1965, p. 689, Act 348, Imd. Eff. Jul. 23.

336.31 Variance; granting for undue hardship.

Sec. 21. The commission shall grant a variance from any rule or regulation to, and suspend the enforcement thereof as to, any person who shows in the case of the person and of the activity which the person then operates that a compliance by him with the rule or regulation, and that the acquisition, installation, operation and maintenance of facilities and equipment required or necessary to accomplish the compliance, would constitute an undue hardship on the person and would be out of proportion to the benefits to be obtained thereby. A variance shall not be granted under the provisions of this section where the person applying therefor is causing air pollution which is injurious to the public health. Any variance granted shall not be construed as to relieve the person who shall receive it from any liability imposed by other law for the commission or maintenance of a nuisance.

Any variance granted by the commission may be granted on the condition that the person receiving it shall make reports to the commission periodically, as the commission shall

specify, as to the progress which the person has made toward reaching a compliance with the rule or regulation of the commission.

336.34 Purpose of act; alteration of existing rights of actions or remedies.

Sec. 24. It is the purpose of this act to provide additional and cumulative remedies to prevent and abate air pollution. Nothing in this act contained shall abridge or alter rights of action or remedies now or hereafter existing, nor shall any provision of this act or anything done by virtue of this act be construed as estopping individuals, counties, cities, townships or villages or other governmental units from the exercise of their respective rights to suppress nuisances or to prevent or abate air pollution.

336.35 Construction of act; evidentiary effect of determination by commission.

Sec. 25. This act shall not be construed as repealing any of the laws relating to air pollution which are not by this act expressly repealed, but it shall be held and construed to be as ancillary to and supplementing the laws now in force, excepting as they may be in direct conflict with this act. The final order or determination of the commission shall not be used in evidence of presumptive air pollution in any suit filed by any person other than this commission.

HISTORY: New 1965, p. 690, Act 348, Imd. Eff. Jul. 23.

336.36 Effect on existing regulations; local enforcement, cooperation with local governmental units.

Sec. 26. (1) Nothing in this act or in any rule or regulation which shall be promulgated pursuant to this act shall be deemed to invalidate any existing ordinances or regulations having requirements equal to or greater than the minimum applicable requirements of this act or prevent any political subdivision from adopting similar provisions if their requirements are equal to or greater than the minimum applicable requirements of this act.

(2) When a political subdivision or enforcing official thereof fails to enforce properly the provisions of the political subdivision's ordinances, laws or regulations which do afford equal protection to the public as that provided in this act, the air pollution control commission, after consultation with the local official or governing body of the political subdivision may take such appropriate action as may be necessary for enforcement of the applicable provisions of this act.

338.204 Dentists; license required.

Sec. 4. Except as herein otherwise provided, it shall be unlawful for any person to practice or engage in the practice of dentistry or dental surgery in any of its branches, other than:

1. Those who are duly registered and licensed dentists in this state under the provisions of either Act No. 235 of the Public Acts of 1933, or the laws of this state in force at the time of their license and registration; and

NOTE: Act 235, 1933, above referred to, was repealed by this act.

338.205 Dentists; examination, dental college qualification.

Sec. 5. No person desiring to practice dentistry shall be licensed until he shall have satisfactorily passed an examination by said board. Every applicant for examination must be a citizen of the United States, or have declared his intention of becoming such. In cases where the applicant has declared his intentions of becoming a citizen, but has not completed his qualifications for citizenship, a temporary license may be issued for the duration of the minimum time required to complete citizenship. Upon completion of the requirements for citizenship the board may issue a regular license without further examination. It remains within the province of the board, before admitting an applicant graduated from a college of a foreign country to examination, to require such applicant to take such post-graduate work in a college of this country as will satisfy the board that such applicant is on an equal basis with graduates of reputable dental colleges of the United States. All applicants who have been graduated from a reputable dental college in the United States or foreign country may be required to furnish a certificate signed by the faculty or secretary of the school, college or university from which said applicant was graduated, certifying as to the character of and to the proficiency attained by said applicant throughout his curriculum of study. Every applicant for such examination shall furnish satisfactory proof supported by affidavit that he is of good moral character and a graduate of a reputable dental college duly organized under the laws of this state or any other of the United States or of any other country. Said board is hereby authorized to ascertain and determine what shall constitute a reputable dental college, but to be considered reputable, the following qualifications shall be necessary:

1. It must be chartered under the laws of the state in which it is located and operated, and authorized by its charter to confer the degree of doctor of dental surgery or doctor of dental medicine;

2. It must give annually a full course of lectures and instructions by a competent faculty and corps of instructors in the following subjects: Physiological chemistry, embryology, anatomy, histology, hygiene, bacteriology, pathology, materia medica, therapeutics, oral surgery, metallurgy, operative dentistry, prosthetic dentistry, crown and bridge work and orthodontia; the curriculum of instruction to consist of not less than 4 terms in 4 separate academic years and each term to be of not less than 32 weeks of 5 ½ days in each week;

3. It must have apparatus and equipment ample and sufficient for the ready and full teaching of the above named subjects; and

HISTORY: CL 1948, 338.205.

338.206 Examination; application, fee, subjects, tests, subsequent examinations, false statement, penalty.

Sec. 6. Every candidate for examination shall file a written application on a form prescribed by the board, shall present his license or diploma for inspection, and shall pay to the secretary a fee of \$35.00. The applicant shall present himself before the board for examination at a date not later than the second regular meeting of the board next after filing his application, in default of which said fee shall be forfeited to said board. The examination shall be written or oral, or both, and shall include such subjects as may be designated by the board at any meeting of the board held 6 months prior to such examination. The board may also require such practical tests, working operations and demonstrations as may be designated by the board. The examination papers of each applicant shall be preserved by said board and may be inspected for 6 months after the date of his examination. During such period any unsuccessful applicant, by depositing \$50.00 with the secretary, shall have the privilege of having his examination papers re-read by the board in the presence of himself and any one representing him. If upon such re-reading the board shall determine that the examination papers of the applicant should have entitled him to pass, a license shall be issued to him and said deposit refunded, but said deposit shall otherwise be forfeited to the board. Any applicant who shall fail to pass an examination shall have the right to apply for a subsequent examination, in which case he shall pay to the secretary a fee of \$25.00 for each subsequent examination: Provided, however, That said board may for a sufficient cause remit said fee for such subsequent re-examination. Any applicant who shall fail to pass the examination upon his first trial will be given credit for such subjects as he may be entitled to, but such credits will be extended only until the second following board examination. If the applicant fails to pass his examination on the second trial, the applicant shall on any third or subsequent trial be required to take an examination in all subjects the same as on his original first application. Any person who in any affidavit or application for examination shall wilfully make a false statement in a material regard shall be deemed guilty of perjury, and, upon conviction thereof, shall be punished as provided by the laws of this state for the crime of perjury.

The county clerk shall register the same in a book provided and kept for that purpose, for which he shall be paid a fee of \$2.00 in each case by the person offering the same for registration. The board shall declare a license void unless it is so registered within 6 months from the date when the holder begins practice in said county. A duplicate license may be issued by the board in case of the neglect, failure or refusal to register within said period, but only upon payment to the board the sum of \$25.00 as a penalty. In case of the removal of a registered dentist to another county within the state, he shall cause his license to be registered in the same manner and within the same time as above provided. On September 1 in each year, every county clerk in the state shall send to the secretary of the board a complete list of all dentists and dental hygienists who registered in his county during the preceding year on blanks to be sent

to the county clerk by the board. Sec. 8. No dentist shall announce or hold himself out to the public as limiting his practice to, or as being especially qualified in, or as giving special attention to, any branch of dentistry, without first having obtained a license therefor from the board as hereinafter provided. The board, upon satisfactory proof that the applicant has had a minimum of 1 year of post-graduate work in any one of the several recognized branches of dentistry in an approved college or university, or its equivalent, to be determined by the board, or has complied with any additional requirements of the board, may issue a license to such dentist authorizing such dentist to hold himself out, or to announce, to the public that he is especially qualified in, or limits his practice to, or gives special attention to, such recognized branch of the dental profession. Examinations shall be theoretical and practical. The theoretical examinations shall be in writing and include all the subjects represented in that recognized branch of dentistry in which the applicant desires to specialize. Written examinations may be supplemented by oral examinations. Demonstrations of the applicant's skill shall also be required. A special license shall be required for the practice of each recognized branch of dentistry in order for a dentist to hold himself out to the public as limiting his practice to, or being especially qualified in, or giving special attention to, any branch of dentistry. The fee for such examination and special license shall be \$100.00. Any applicant who shall fail to pass an examination shall have the right to apply for a subsequent examination, in which case he shall pay to the secretary a fee of \$25.00 for each subsequent examination: Provided, however, That said board may for a sufficient cause remit said fee for such subsequent re-examination.

The board may ascertain and determine what shall constitute such reputable school. Every applicant who shall successfully pass such examination as may be prescribed by the board shall be granted a license as a dental hygienist which shall be recorded in the same manner as provided in section 7 of this act. Any applicant who shall fail to pass an examination shall have the right to apply for a subsequent examination, in which case he shall pay to the secretary a fee of \$10.00 for each subsequent examination: Provided, however, That said board may for a sufficient cause remit said fee for such subsequent re-examination. Such licensed dental hygienists may remove calcareous deposits, accretion and stains from the teeth, and may prescribe or apply ordinary mouth washes of soothing character, but shall not perform any other operation on the teeth, mouth or tissues of the oral cavity, or administer any therapeutic remedies to diseased portions

of teeth or their surrounding tissues. A hygienist may operate in the office of a legally licensed dentist, in a state or municipal institution, or in public schools, or under a board of health, or in a public clinic, authorized by said board, but shall not operate except under the supervision of a licensed dentist. Any person receiving such permit may practice dentistry in any state or municipal institution, or hospital, or public school, or under a board of health, or in any public clinic, authorized by said board under the direct supervision of a licensed dentist, but not otherwise; nor shall any permit authorize such person to practice for a period longer than the interim between its date of issue and the next regular examination held by the board for applicants for licenses as dentists. Permits shall be granted only to such graduates as have a definite offer of a position in a state or municipal institution, or hospital, or public school, or board of health, or public clinic, authorized by the board, and only after proper credentials of the applicant for such a permit have been examined and accepted by the board.

Any failure to obey such order of the court may be punished by such court as a contempt thereof.

If the accused pleads guilty, or after hearing he shall be found guilty by the board of any of the charges made, it may revoke or suspend his license for a limited period, shall enter the order on its records, and shall notify the clerk of the county where he is registered of the cancellation or suspension of his license, as the case may be, who shall in turn enter such cancellation or suspension on the registration record in his office.

The findings of fact made by the board acting within its power shall, in the absence of fraud, be conclusive, but the supreme court shall have power to review questions of law involved in any final decision or determination of the board: Provided, That application is made by the aggrieved party within 30 days after such determination by certiorari, mandamus or by any other method permissible under the rules and practice of said court or the laws of this state, and to make such further orders in respect thereto as justice may require. The board shall charge the following fees for examination, registration and renewal of certificates: \$50.00 for the standard examination, \$8.00 for the preliminary examination, \$10.00 for initial registration and \$20.00 annually for the renewal of certificate of registration. Where applicant has been duly

registered in another state the registration fee shall be \$50.00, and for the indorsement of a certificate to another state, \$5.00.

Registration by reciprocity.

Registration by exemption.

(6) This board, without examination, may grant a certificate of registration to a competent optometrist who is registered by exemption, or who did not pass a standard but a limited examination, and who has conducted a legal and ethical practice in another state for at least 10 years immediately prior to his making application for registration to this board, provided such applicant shall present a certificate from the state board of optometrical examiners from the state from which he removes, certifying that he is a citizen of the United States over the age of 21 years, is a legal, competent and ethical optometrist of good moral character, that he has conducted a legal and ethical practice for at least 10 years immediately prior to his making application for registration to this board and will declare under oath or affirmation that he will conduct an ethical practice of optometry in this state; that the board of examiners in optometry of such other state shall permit in like manner by law the recognition of like certificate issued by the board when presented to such other board by a legal practitioner of optometry from this state, who is registered under the exemption clause of this or preceding acts who may wish to remove to a practice in such other state. The board, without examination, may grant a certificate of registration to an applicant, who has never failed a Michigan examination for optometrists, who is a competent optometrist of good moral character, who is a citizen of the United States and a graduate of a 2-year program in optometry prior to 1951, who has taken and passed a standard optometry examination of another state, and who has continuously resided in this state for not less than 20 years prior to the effective date of this amendatory act. Such applicant shall present a certificate of the board of the state whose standard examination he shall have passed, bearing the seal of the board and the signature of the secretary or chairman, and shall pay a fee of \$50.00 to the board.

Removal to another state.

(7) Any person, who is a legal, ethical and competent practitioner of optometry in this state, who has been duly licensed by the board, of good moral character, and known to the board as such, who shall desire to change his residence to another state, upon application to the board, and the payment of a fee of \$5.00, shall receive a special certificate over the signature of the president and secretary-treasurer, and bearing its seal, which shall attest the facts mentioned in the foregoing paragraphs of this section and give the date upon which he was registered and licensed. Every registered optometrist who desires to continue the practice of optometry shall annually, on or be-

fore July 1, pay to the secretary of the board a renewal registration fee of \$20.00 per annum, for which he shall receive a renewal of his certificate. In case of neglect to pay the renewal registration fee, the board may revoke such certificate and the holder thereof may be reinstated by complying with the condition specified in this act. But no certificate shall be revoked without giving 60 days' notice to the delinquent who within such period shall have the right to renewal of such certificate on the payment of the renewal fee, with a penalty of \$5.00. Retirement from practice for a period of not exceeding 5 years shall not deprive the holder of said certificate of the right to renew his certificate on payment of the lapsed fees, and the \$5.00 penalty. In addition to the renewal fee, the licensee shall present evidence satisfactory to the board that in the year preceding the application he attended an educational program of at least 12 hours. The board may exempt from this requirement those licensees who submit satisfactory proof that they were prevented from attending an educational program because of illness or other reason. A registered optometrist need not pay the renewal fee while in the armed forces of the United States.
